Exploring New Models of Global Clinical Trial Collaboration Panellists

Southern Star Research | CRO

David Lloyd, Managing Director

Southern Star Research is a full-service CRO supporting biotech, pharmaceutical and medical device companies. It provides end-to-end clinical trial services including project management, monitoring, data management, biostatistics and medical writing, with expertise in delivering multi-regional studies.

RDI Partners | R&D Tax Incentive Specialist

Mike Burfield, CEO

RDI Partners is an Australian advisory firm helping international biotech, pharmaceutical, medtech and technology companies establish and conduct R&D in Australia. It provides integrated services across R&D tax incentives, corporate structuring, tax, governance and clinical trial advisory, supporting over \$1 billion in Australian R&D investment.

Crux Biolabs | Bioanalytical Laboratory

Stefan Cross, CEO

Crux Biolabs is an Australian bioanalytical laboratory specialising in PBMC processing, biomarker assays, flow cytometry, ADA testing, and large- and small-molecule pharmacokinetics for clinical research. Operating from its ISO 17025-accredited Melbourne facility, it provides customised assay development and validation services for clinical trials.

UniSC Clinical Trials | Clinical Trial Site

Tom Nott, Head of Business Development

UniSC Clinical Trials is a multi-site clinical trial network across South East Queensland, delivering Phase I through late-phase studies for industry sponsors. Backed by the University of the Sunshine Coast, it combines academic research expertise with the operational agility required by biotech and pharmaceutical companies.

BioCina | CDMO

Teresa Karnatz, Senior Director, Business Development (Europe)

BioCina is an Australian CDMO specialising in biologics, small molecules, mRNA, pDNA and sterile fill-finish manufacturing. With over 50 years of manufacturing experience, it supports clients from clinical development through to commercial supply, backed by a strong global regulatory and supply track record.

Global Pharma Solutions | Regulatory Consulting

Margaret Jenkins, Managing Director

Margaret brings over 30 years of biotech and pharma experience, helping companies navigate clinical development through to regulatory approval. The Global Pharma Solutions (GPS) team serves as your on-the-ground partner in Australia, providing senior-led clinical strategy and operational oversight to de-risk and deliver early phase clinical trials.
