Exploring New Models of Global Clinical Trial Collaboration Panellists

Central Pharmacy Logistics | Trial Logistics

Rima Darwiche, CEO

CPL specialises in Direct-to-Patient clinical trial supply logistics, enabling investigational products to be delivered directly to participants' homes across Australia. As the first company licensed by pharmacy authorities to provide this service nationally, CPL helps improve patient retention, reduce travel burdens, and accelerate trial outcomes for sponsors through more consistent data collection.

QIMR Berghofer | Specialist Research

Tamanna Monem, Head of Growth and Partnerships

QIMR Berghofer is a leading Australian medical research institute advancing cancer, infectious disease, mental health and chronic disease research. Based in Brisbane, it partners with industry, universities and governments to translate discoveries into diagnostics, therapeutics and vaccines, while building international collaborations, including Horizon Europe partnerships.

Alithia Life Sciences | CRO

Jovana Milesovic, Chief Commercial Officer

Alithia Life Sciences is an Australian-owned boutique, full-service capability CRO launched to support and assist pharmaceutical, biotechnology, device companies and institutional research groups undertaking their project in the Australian region and beyond.

Global R&D | R&D Tax Incentive Specialist

Pavel Reddy, R&D Tax Advisor

Global R&D is an R&D Tax Incentive consultancy specialising in biotech, life sciences, medtech and pharma. Led by registered R&D Tax Practitioner Dr Pavel Reddy, the firm helps companies maximise compliant R&D tax claims and secure funding through Australia's R&D Tax Incentive program.

Veritus Research | Clinical Trial Site

Marco Rauseo, Business Development Manager

Veritus Research is an Australian clinical research organisation specialising in early-phase, first-in-human, therapeutic and vaccine trials. Operating a purpose-built research facility, it delivers high-quality participant recruitment and clinical data for sponsors across a range of studies.

Bellberry | Ethics

Kylie Sproston, CEO

Bellberry is an independent, not-for-profit organisation providing Human Research Ethics Committee (HREC) review services. It delivers high-quality, efficient and internationally accredited ethical and scientific review to support safe, effective clinical research.
