FOTON MOBILITY DISTRIBUTION

FOTONMOBILITY.COM.AU

MORE THAN A VEHICLE.

A COMPLETE PARTNER.

Foton Mobility Distribution is a proudly Australian-owned distributor delivering hydrogen, electric, and commercial transport solutions. We partner with businesses and governments to deliver cleaner, smarter transport

ZERO-EMISSION EXPERTISE

Battery electric and hydrogen fuel-cell technology for real-world commercial operations.

TRAINING & INDUSTRY KNOWLEDGE

We work with training institutions and industry partners to build the skills needed for Australia's zero-emission transport future.

NATIONAL SUPPORT

From vehicle supply and commissioning through to aftersales, maintenance, genuine parts and technical support, our team is focused on keeping fleets moving.

LOCAL PRODUCTION

Australian production capability through our Nowra facility, supporting the delivery of commercial transport solutions for the Australian market.

OUR RANGE

18m Articulated Bus

High-capacity solution for busy urban corridors.

EV City Bus

100% electric performance for sustainable city transport.

Hydrogen Bus

Hydrogen fuel cell performance for sustainable city transport.

Diesel Coach

Comfortable and powerful long-distance travel.
