Exploring New Models of Global Clinical Trial Collaboration

Nucleus Network | Phase 1 unit

Speaker: Dr. Graham Wood, Chief Scientific Officer

Nucleus Network is the only global provider dedicated to early phase clinical trials, with units in Australia, the USA and the UK. Our unified network provides sponsors access to all 3 major regulatory markets through one trusted partner. First in Human expertise, we also conduct the full spectrum of clinical pharmacology studies, giving sponsors the depth, consistency and participant access to accelerate new medicines.

Southern Star Research | CRO

Speaker: Dr. David Lloyd, Managing Director

Southern Star Research (SSR) is a full-service clinical research organisation supporting sponsors across the drug development lifecycle. With extensive experience in European markets, SSR delivers high-quality, efficient clinical studies across therapeutic areas including oncology, hepatology, metabolic disorders, and rare diseases, providing tailored solutions that accelerate timelines and optimise data quality.

Crux Biolabs | BioAnalytical Labs

Speaker: Stefan Cross, CEO

Crux Biolabs is an Australian bioanalytical laboratory specialising in PBMC processing, pharmacodynamics (biomarker, flow cytometry and ADA) and pharmacokinetics (large and small molecule) for clinical research. Our expert scientists can customise and validate a wide range of biomarker and cell assays in our ISO 17025-accredited lab in Melbourne, Australia.

Global R&D | R&D Tax Advisory

Speaker: Dr. Pavel Reddy, Founder & Registered R&D Tax Practitioner

Global R&D is a R&D Tax consultancy with a global reach. We provide valuable, expert guidance on aspects of R&D Tax matters to companies & organisations across the world across various Tech sectors, including biotech, life sciences, medtech, & pharma providing insightful and expert advice, trusted guidance, and focused resources to ensure compliant R&D Tax Incentive claims and receive cash refunds.
