Agree. I will advocate for a longer session.  
When will the various reports be published?

**Subject:** EcoForum question

G'day Andrew, Bruce, reaching out to you in your capacities on the Ecoforum organising committee.

The Defence CSIRO Collaborative PFAS Research Program is coming to a close EOFY. Since 2018 this program has done a lot of great research in diverse areas. It would be great to highlight this in a presentation at EcoForum 2025. My concern is that the 20 min with Q&A format by necessity means we would need to oversimplify the content. Wondering if a 30 or 40 min time slot could be arranged, to do it justice (assuming accepted following abstract submission)? I've seen double slots at previous conferences so hoping this isn't too wild an ask.

This could go either in the PFAS session (der) or the case studies for best practice.

Please let me know if there are specific session leads I should be sending this question to.

Thanks for considering  
Karl
