We're looking for sponsors, partners, and collaborators who want to be part of a movement shaping the future of sexual health, rights, and justice. If your brand, organisation, or initiative connects with the next generation, let's talk!

WHY THIS SESSION MATTERS

1

This event is a crucial addition to the **WAS** program, highlighting the role of youth education in shaping the future of sexual and reproductive health globally.

2

A rare opportunity for an international conference of this calibre to be hosted in Australia.

3

Tackles issues the standard curriculum doesn't address, responding to the current cultural climate.

4

Offers young people free access to leading professionals in the field.

5

Provides a platform for diverse voices—including queer, cisgender, and Indigenous perspectives—engaging in honest, inclusive discussions.

6

Addresses consent education at a critical time, given the high rates of sexual assault in universities.

7

Encourages a holistic understanding of sexual health, from pleasure to legal rights.

WHAT'S IN IT FOR YOU?

By supporting this event, you'll gain:

Direct access to young people – engage with the next generation of changemakers.

Brand exposure – align your organisation with a forward-thinking, socially impactful initiative.

Tabletop opportunities – showcase your work, resources, or products directly to attendees.
