Supporting the HIV, Viral Hepatitis
and Sexual Health Workforce

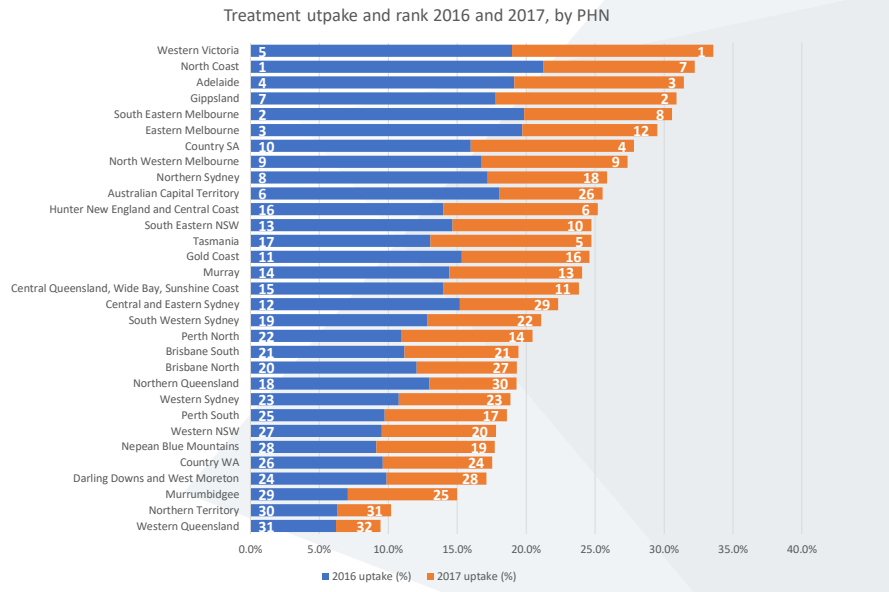

A joint venture between The University of Melbourne and The Royal Melbourne Hospital

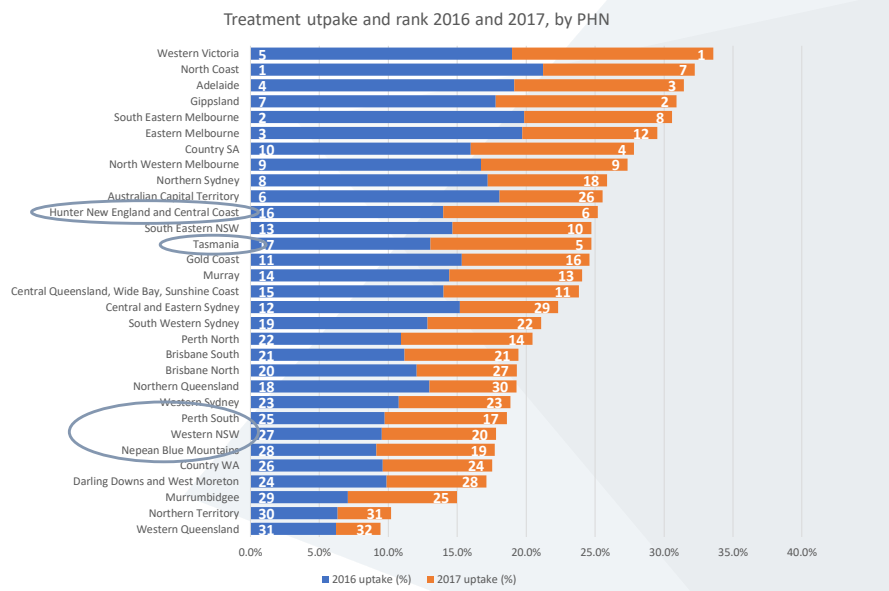

Mapping viral hepatitis

- CHB prevalence, care, treatment; CHC prevalence and treatment; liver cancer
 - By PHN and SA3
- Collation of multiple data sources:
 - For prevalence: population-specific seroprevalence (CHB) and notifications (CHC)
 - For care and treatment: Medicare - MBS and PBS
- Cascades of care by region
- High priority areas and populations
- Track progress

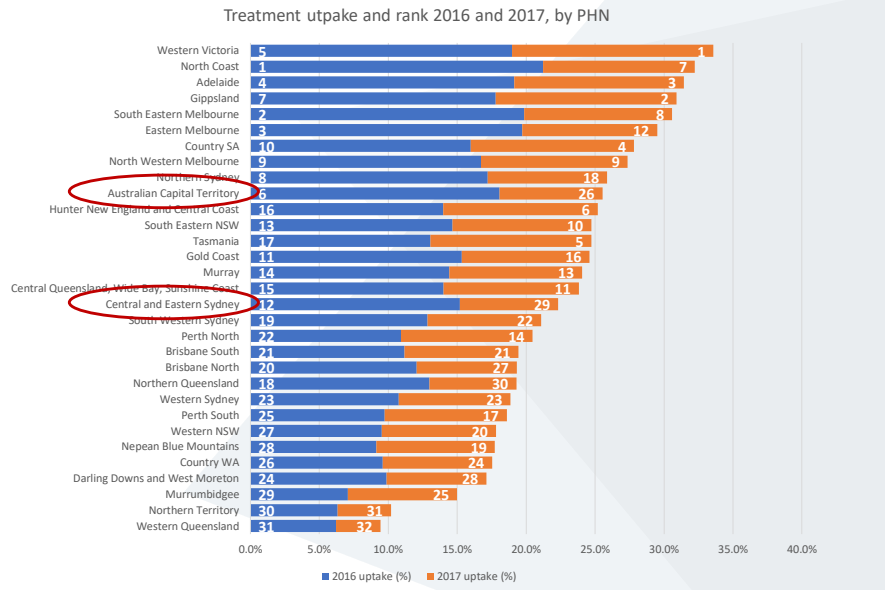

1. Trends in hepatitis C treatment

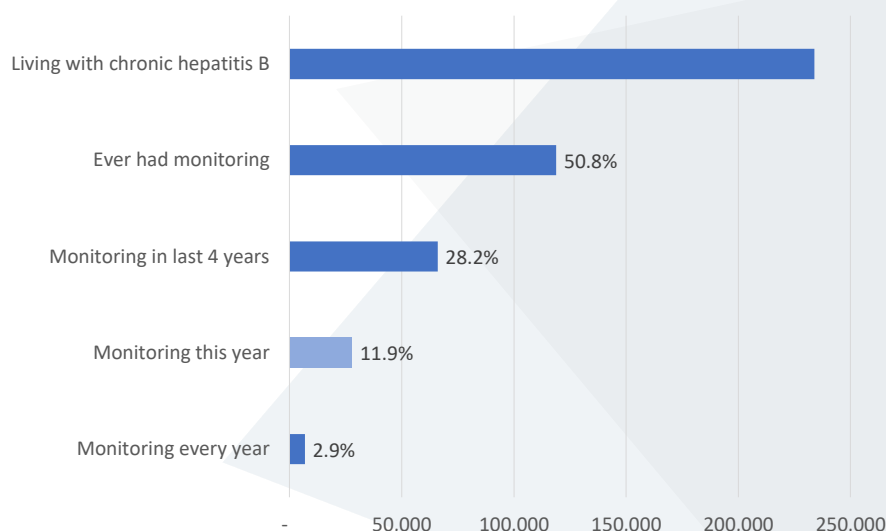

1. Trends in hepatitis C treatment

1. Trends in hepatitis C treatment

2. Gaps in the CHB monitoring cascade

3. Disparities between monitoring and prescribing

3. Disparities between monitoring and prescribing

4. Representation of work from priority regions
