# FEAR IS NOT DANGER

## ALTERNATIVES TO CALLING THE POLICE:

1

Give folks space. If it's got nothing to do with you and if all the folks in the vicinity are safe, sometimes intervention isn't necessary.

2

Property is second to other human's health and safety.

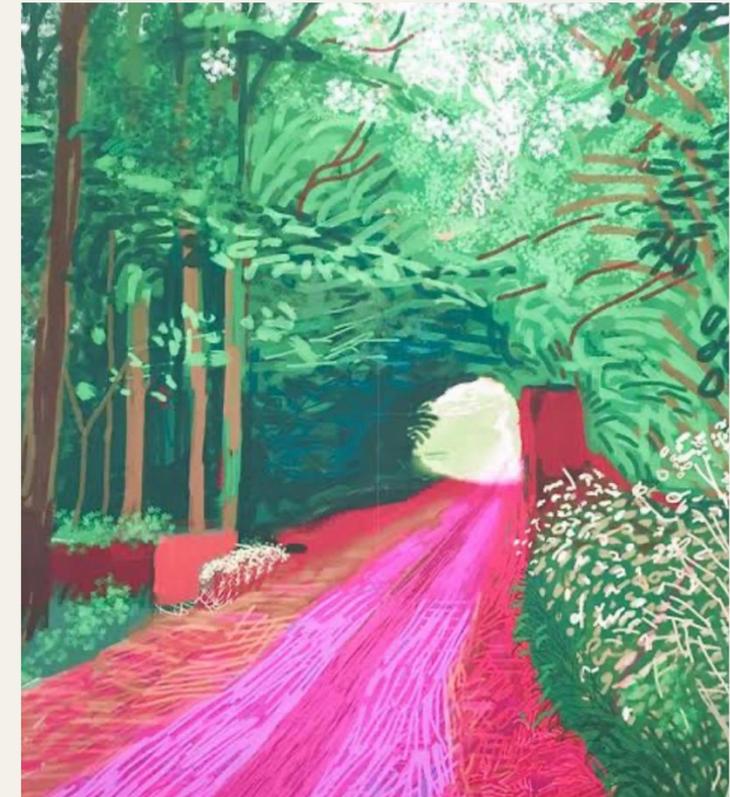

3

Don't bring cops into the neighbourhood. If needed, go to the police station directly.

4

If you observe someone exhibiting behavior that seems "odd" to you, don't assume that they are publicly intoxicated. Exhaustion, drug contamination, traumatic brain injury or a similar medical episode may be occurring.
