

No One Left Behind

A case for strengthening health information management systems

Michael Larkin – 2018

Strengthening Information Management Systems

Audit

- Pathology and diagnostic coding
- Case note audit

Modify the System

- Hepatitis quick tab
- Disable investigations
- Creation of new clinical items (HBV clinical review)

Modify the Clinical Record

- Set recalls for required care
- Update main summary
- Scheduled reports

Centralised Support and Coordination

Clinical Record

TEST, FOUR YEARS OLD 6y7m Non Patient Male (28/12/2011) Patient ID 43159

Pathology | Scan | Message | Change | Biographics | Charts | Services | Open My Health Record

Clinical Item | Medication | Imaging | Recall | Letter | Attachment | Remove | Reports | AIR | Claims | Transport

Summary | Progress Notes | Reference | Detail

Main Summary | Medication Summary | Social & Family History | Care Plan

Active Problem/Significant History

Date	Item Description
11/01/2018	hepatitis B
11/06/2017	Hepatitis A immune

Alerts a

Advers

Nil Known Adverse Reactions

Qualifier Summary

Qualifier	Value	Date
Oxygen Saturation	93 %	19/05/2016
Weight	8 kg	20/10/2017

To Do

Date	Item Description	Exp.
25/06/2012	<Recall> Aboriginal & TSI child health check	
15/02/2017	<Referred> PCS Internal Referral/Paed Registrar or SMSK team	
26/07/2017	<Recall> Diabetes annual cycle of care	
08/08/2017	<Referred> PCS Internal Referral/Paed Registrar or SMSK team	
08/08/2017	<Referred> Internal Referral: Perinatal Mental Health	
11/01/2019	<Recall> Investigation/request "Hep Clinical Review tests"	
11/02/2019	<Recall> Review,chronic hepatitis B	

ament 23/03/2018 No Investigations Last Immunisation 06/04/2016
