Acknowledgement of Country

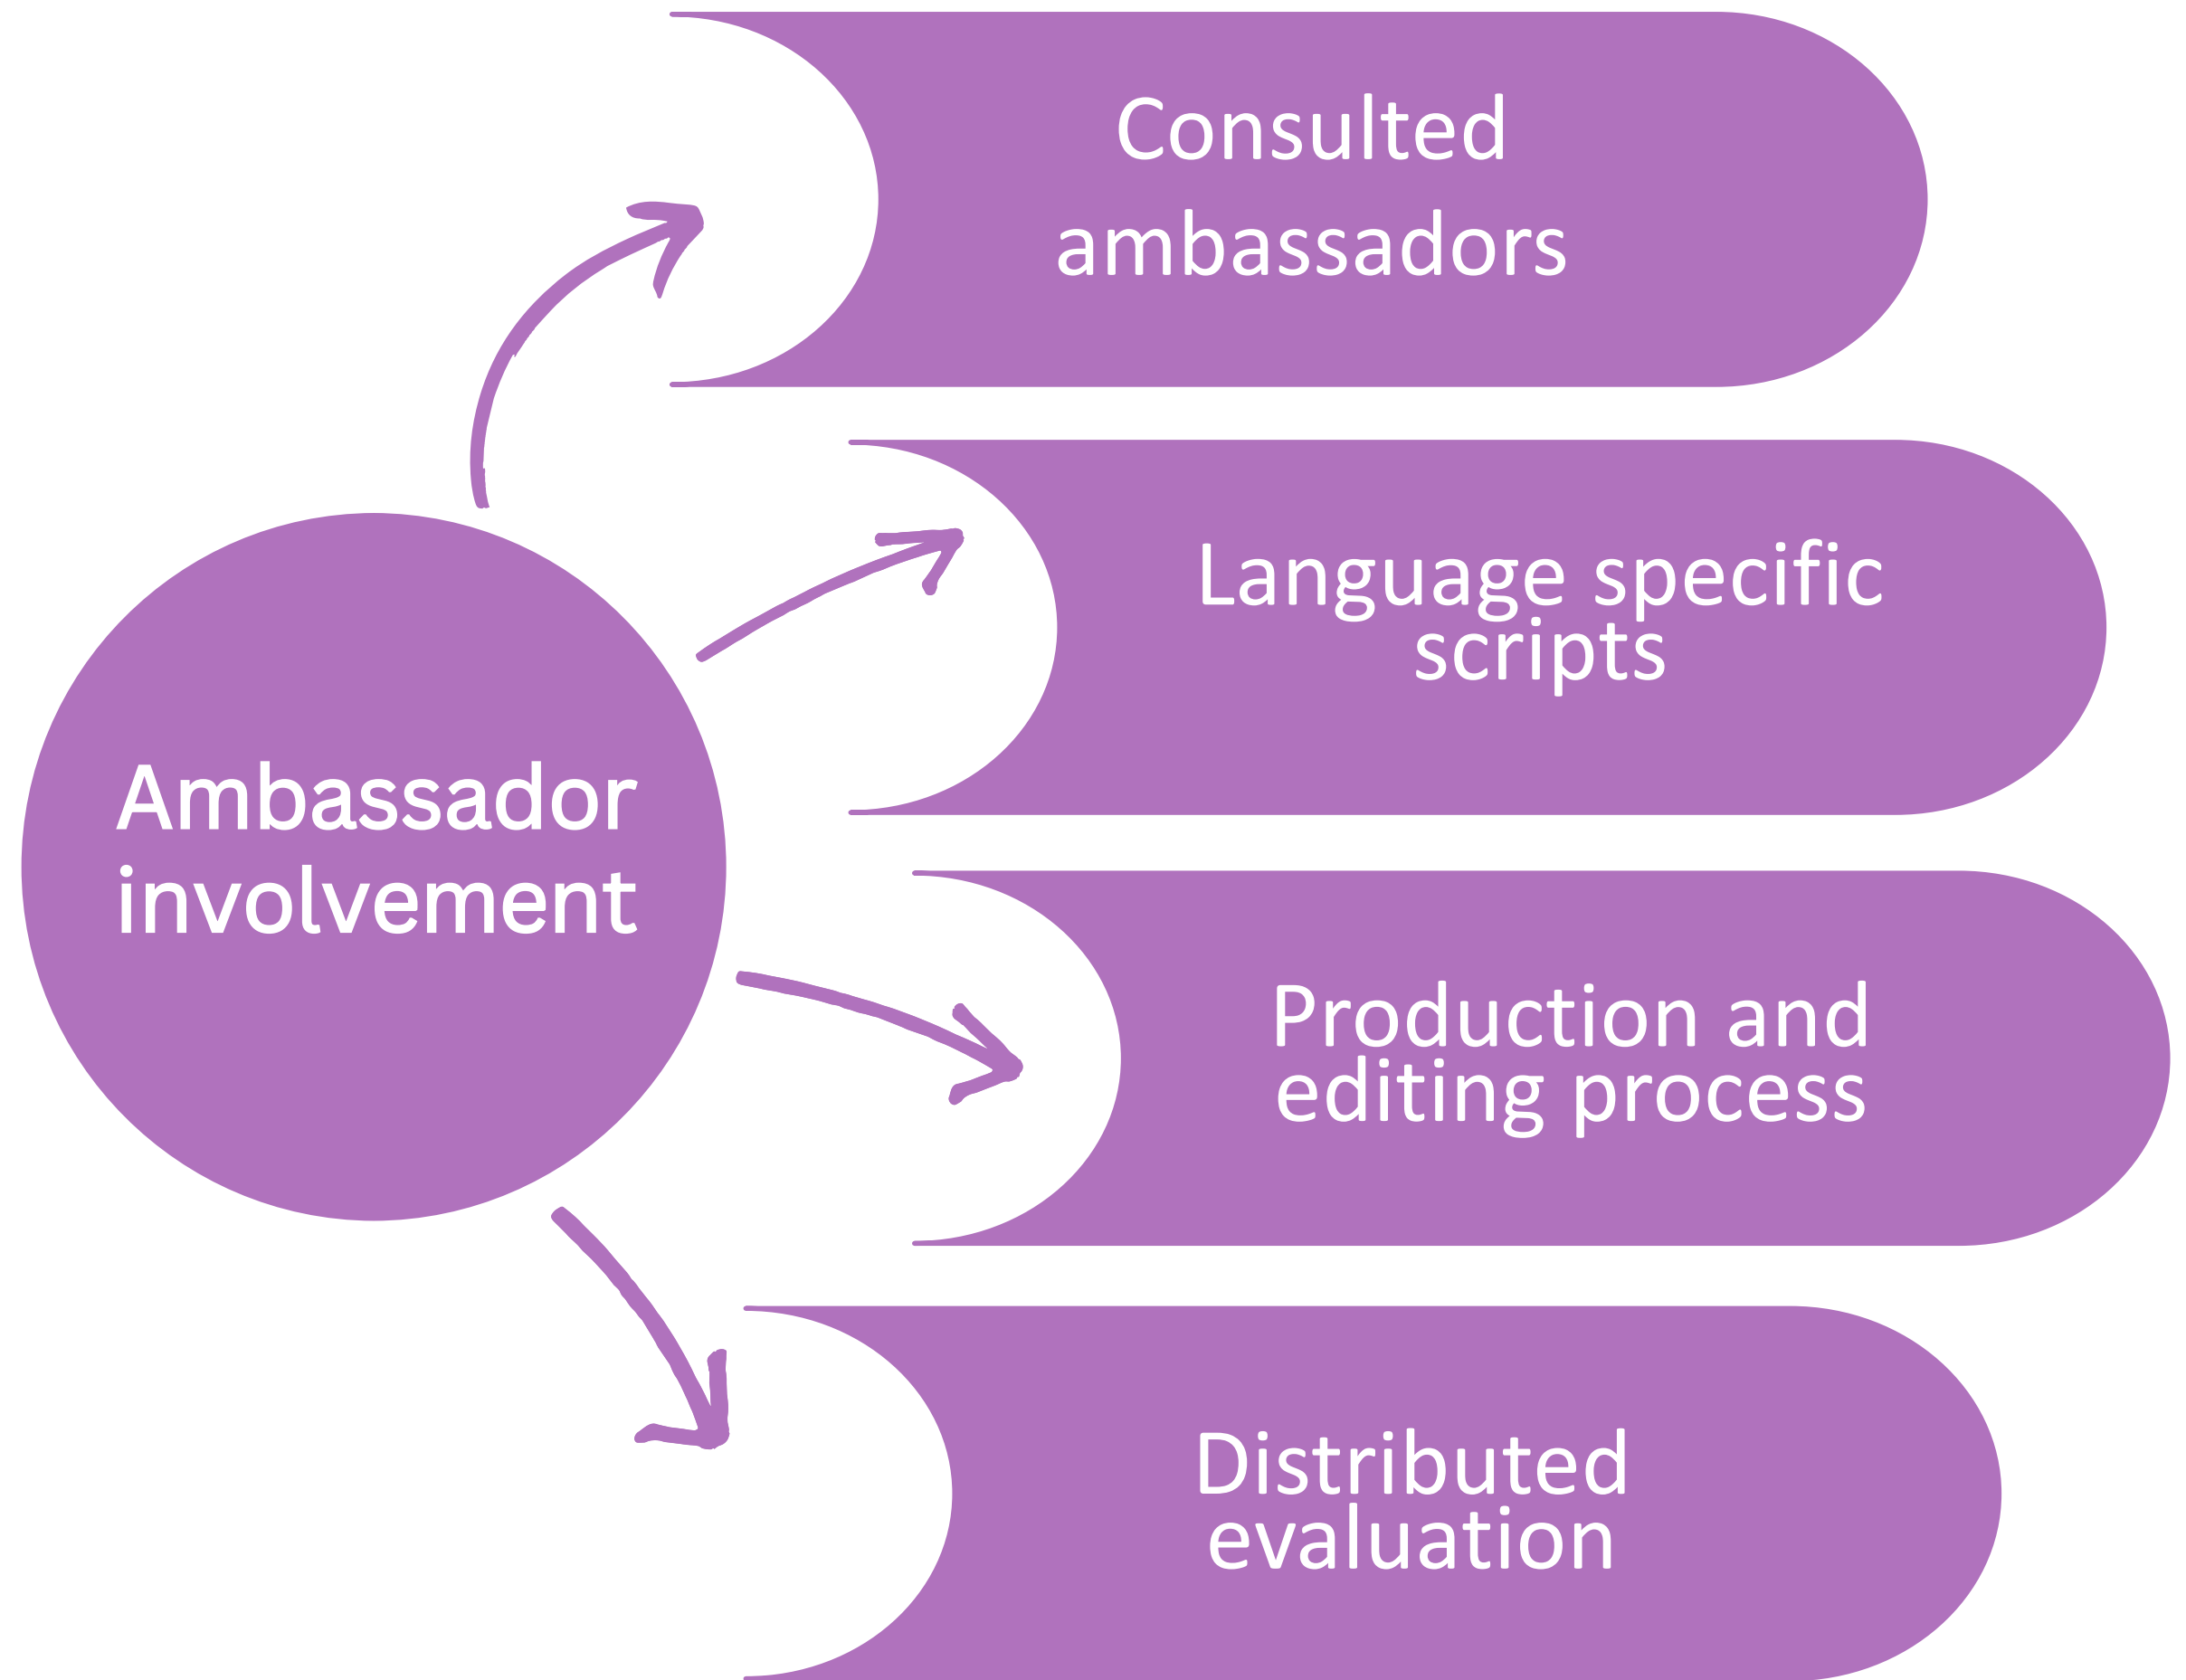

I would like to begin by acknowledging the traditional owners of the lands where we meet today – the lands of the Woi-Wurrung Wurundjeri people of the Kulin Nations. We express our gratitude to them for their continued care and curation of these lands and waters.

We pay our respects to Elders past and present. We extend this acknowledgment to any Aboriginal and or Torres Strait Islanders who may be present today.

LiverWELL observes and honours the Kulin Nation's intrinsic connection to land, sky and water, and the creator Bunjil. LiverWELL is committed to being led and informed by Aboriginal and Torres Strait Islanders on bridging health outcomes for communities and improving liver health.

Community Driven, Collaborative Approach

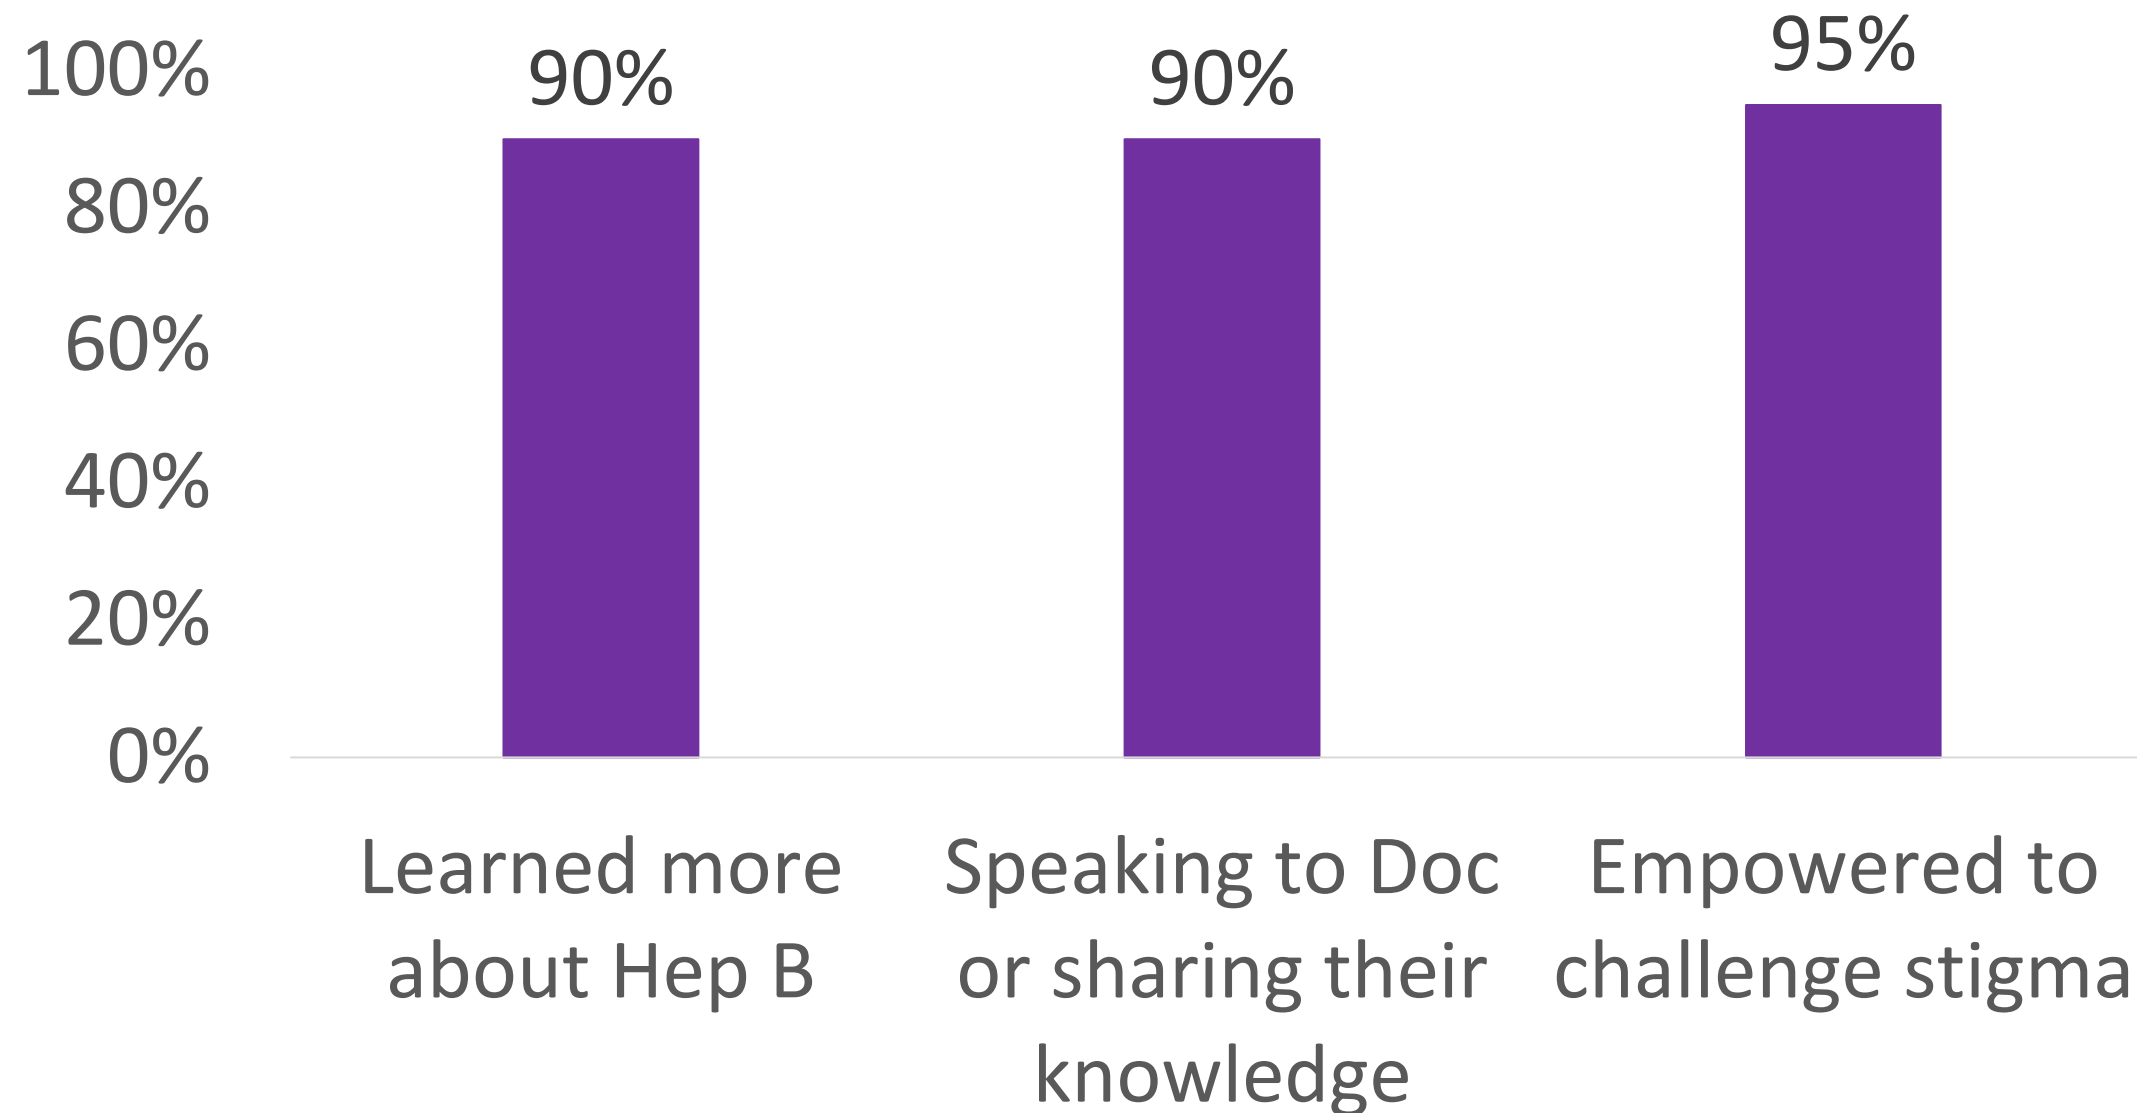

Survey Outcomes and Reach
