

A review of Australian-based sexual health research and practice with migrant and mobile populations 2021 - 2025

ELIZA LOCK, GEMMA CRAWFORD, ROANNA LOBO, JONATHAN HALLETT,
CORIE GRAY, JACQUI HENDRIKS, JONINE JANCEY

Acknowledgement of Country

I would like to begin by acknowledging the Traditional Owners of the land on which we meet today, the Kaurna People. I would also like to acknowledge the Traditional Owners of the land on which this work is situated on, and where we live, work, and play – the Whadjuk people of the Noongar Nation.

I'd like to pay my respects to elders past and present and extend that respect to any Aboriginal and Torres Strait Islander people in the audience today.

Disclosure statement

The Sexual Health and Blood-borne Virus Applied Research and Evaluation Network (SiREN) supports service providers, researchers and policy-makers working in the sexual health and blood-borne virus space to engage in research and evaluation.

SiREN is supported by the Sexual Health and Blood-borne Virus Program (SHBBVP) within the Department of Health, Western Australia.

Who are we talking about

Mobile populations refers to:

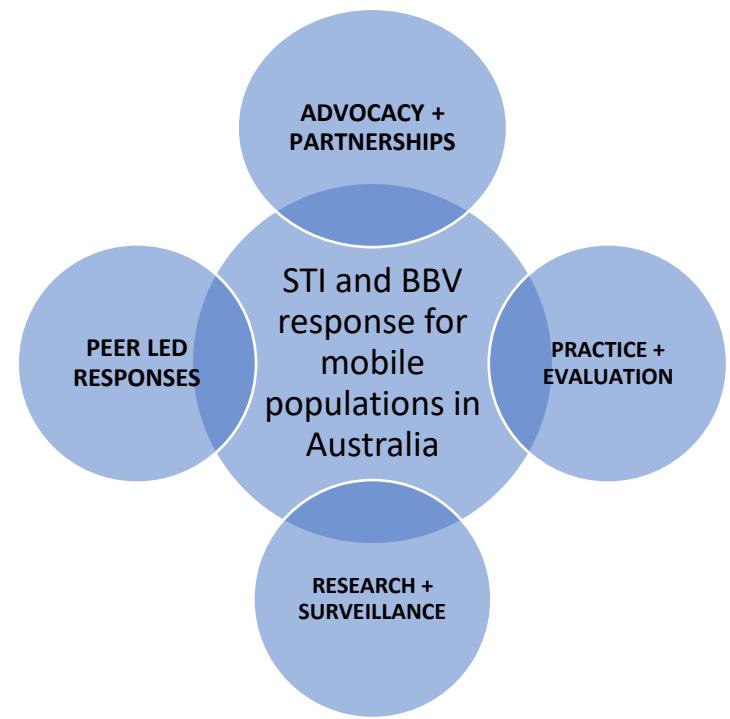

- migrants (defined as people born overseas) to Australia and/or
- people who travel from Australia (including those known as ELoFTs – expatriates, longer-term or frequent travellers)

Mobile populations, as well as people from culturally and linguistically diverse backgrounds, are recognised as priority populations across HIV, STI and BBV national strategies.

What we did

A review of Australian-based projects and research with culturally and linguistically diverse (CaLD) migrant and mobile populations in relation to sexual health, 2021-2025.

Projects were mapped to the domains of advocacy and partnerships; peer-led responses; practice and evaluation; and research and surveillance.

Advocacy and partnerships

- Community of Practice for Action on HIV and Mobility
- International Student Sexual Health Network
- CaLD Affiliates Group, Health Equity Matters

Peer-led responses

- Srikandi Project, CERIPH & WAAC
- HIV Clinical Concierge Program, NSW Multicultural HIV and Hepatitis Service

Practice and evaluation

- CaLD sexual health resources, CoPAHM
- Even Me? WAAC
- CONNECT Project, Thorne Harbour Health
- PEACE Multicultural Services

Curtin University is a trademark of Curtin University of Technology
CRICOS Provider Code 00301J

Research and surveillance

- NEXUS, CERIPH & CoPAHM
- Migrant Blood-borne Virus and Sexual Health Survey (MiBSS), CERIPH – Curtin
- CaLD HIV, Viral Hepatitis & STI Surveillance Report, Kirby

So what?

- Mobile groups (including people born overseas) remain underrepresented in research and visible sexual health programs – despite being a priority group across STI & BBV strategies

Desktop report to be published end of 2025
