NAVIGATE THE WILDERNESS

Listen | Adapt | Discover

We are calling for abstracts from across the MRS Spectrum, including;

▼ **Trauma & Survivorship:** Exploring the impact of trauma on patients, colleagues, and ourselves, and how we can provide compassionate, patient-centred care while prioritizing well-being.

▼ **Mentoring & Clinical Education:** Fostering a culture of support and guidance for the next generation of medical radiation professionals.

▼ **Embracing Diversity:** Learning how to create more inclusive workplaces and provide equitable care to all patients.

We look forward to receiving your abstract submissions to become part of an exciting conference filled with discussions, networking, and opportunities for professional growth.
