

**Delivering health  
solutions that make  
health personal**

**Ampliar**  
Health

## About us

At Amplar Health we are driven by a desire to make health care more personal. We partner and co-create health solutions with government, businesses and not-for-profit organisations to deliver on our vision of the best health and wellbeing for Australia.

We strive to provide people support in their unique health journeys. We champion healthcare that is flexible, accessible and sustainable for all.

## Virtual health

We are proud to be one of Australia's major providers of online and telehealth services<sup>†</sup> with the capability to deliver services 24/7, 365 days a year. Our health solutions for partners include triage, mental health support and health concierge services delivered via a range of channels including telephone, video, SMS, email, web chat and smartphone app.

<sup>†</sup> Access to a smart phone, internet, and/or phone connection may be required to access services/programs. Please reach out to us to find out more.

## Prevention and health management

We work alongside people with chronic and complex health conditions to help them manage their health and wellbeing.

Our programs<sup>†</sup> provide individuals with, or at risk of, complex and chronic health conditions or injuries, the support and information they need to navigate the health system and manage their health, where clinically appropriate. Support may include helping people manage their conditions via care coordination and one-on-one health coaching.

## At home care

We understand that people want more choice over where and when they receive care. Where clinically appropriate, we offer people the flexibility of receiving health care and support services in alternative settings to hospitals.\*

We provide services like nursing, physiotherapy, occupational therapy, podiatry and virtual dietetics in homes across Australia offering choice and convenience.
