

Edify Energy

Large Scale Renewable Energy

Future Proof your Career

Are you passionate about making a positive impact on the environment?

Be part of a thriving industry that's shaping the future of our planet, offering exciting and sustainable career opportunities that not only contribute to a greener world but also promise long-term job security and growth.

Future Proof your Career

Growing Industry: The renewable energy sector is rapidly expanding, driven by global efforts to combat climate change and reduce carbon emissions. This growth translates to a high demand for skilled professionals in various fields.

Diverse Opportunities: From large scale solar and energy storage systems, to green hydrogen development, the renewable energy sector encompasses a wide range of disciplines.

Trades & Services – Electrical, Mechanical, Building, Plumbing

Civil – Plant and Machinery operators

Engineering – Electrical, Civil, Mechanical, Chemical, Process, Grid

Project Management – Project, Construction, Finance, Administration, Human Resources, Quality managers

Positive Impact: Working in renewable energy means contributing to a cleaner, healthier planet.

Innovation and Technology: The renewable energy sector is at the forefront of technological innovation. You'll have the opportunity to work with cutting-edge technologies and be part of ground breaking advancements that shape the future of energy.

Job Security: As the world transitions to more sustainable energy sources, the renewable energy sector is expected to continue growing, providing long-term job security and career advancement opportunities.

Work with an Australian Leader

Proudly 100% Australian owned, Edify leads the industry in the deployment and operation of new energy generation, storage and grid infrastructure to support Australia's energy transition. Charging ahead, we have delivered 1GW of clean green power, accelerating the energy transition.

The team at Edify are dedicated to making a lasting and genuine contribution to decarbonising Australia. Everyone who works at Edify does so because we care. We care about the environment. We care about creating a sustainable, low-carbon future for our children and future generations. We care about delivering the very best project outcomes for our communities, bringing low cost, sustainable energy to Australian consumers. It's what gets us out of bed in the morning. And what drives us during the day.

Work with Edify Energy

Our close-knit, multidisciplinary team is the best in the business and deliver the full life cycle of our projects including site selection, planning, grid connection, contracting, power station design, engineering, yield assessment, marketing, financing, plant operations, legal, tax and accounting.

If this fits with your goals and aspirations, send us an email at careers@edifyenergy.com and we can talk to you about our future job opportunities.

Edify acknowledges and respects the Wulgurukaba and Bindal people as the traditional owners of the Townsville region. We look to their rich culture and deep connection with the land and water to guide our care of the planet.
