

# Hi, we're AusNet

**We're an Australian energy delivery services business, owning and operating more than \$13 billion of electricity and gas network assets.**

We own and operate the Victorian electricity transmission network, an electricity distribution network and a gas distribution network. We're one of five electricity distributors, and one of three gas distributors in Victoria.

We are a team of 1,300+ dedicated individuals spread across regional and metropolitan Victoria who work tirelessly to ensure that our 1.6 million customers have access to power, light, cooling, heating and entertainment every single day.

## OUR NETWORK

### **Electricity**

Our electricity network covers an area of more than 80,000 square kilometres, with 93% being in regional and rural areas. Our transmission network transports power to Victoria's five distribution networks, and supplies power to 6.9 million Victorians. We distribute electricity to 802,000 customers across Victoria.

### **Gas**

We are one of three gas distribution businesses in Victoria. Our gas network covers an area of more than 60,000 square kilometres. We distribute gas to residential, industrial, and commercial customers in western Melbourne, Geelong and parts of western Victoria.

## OUR PURPOSE IS TO

**Connect communities with reliable, affordable and sustainable energy.**

## OUR VISION IS TO BE

**Trusted to bring the energy today and build a cleaner tomorrow.**

**Energy sources are changing and we're changing too.**

From small towns powering themselves, to vast renewable energy farms connected to many, we support communities to connect and share new energy from wherever it's generated.

Because of the right changes today, we are creating a brighter, more sustainable and better connected tomorrow.
