

DEMONSTRATION DAY INVITATION

The NZ Agricultural Aviation Association (NZAAA) and Groundspread NZ invite you, along with any of your colleagues who have an interest in managing, regulating or monitoring the application of agrichemicals and fertilisers, to a demonstration that will include a fixed wing aircraft, a helicopter, a drone and a ground spreader.

ABOUT US

NZAAA is a division of the Aviation Industry Association of NZ, the peak body representing aerial operators engaged in applying fertilisers, agrichemicals, and vertebrate toxic agents

Groundspread NZ is the peak body in ground-based nutrient placement; leading, promoting, and enhancing the fertiliser groundspread industry

PROGRAM

- *1:1 discussions with pilots and drivers
- *Best Practice & Technical presentations
- *Open forum discussion
- *Practical demonstrations (weather permitting)
