Concrete Posts for Trellises & Vineyards

Australian Concrete Posts [ACP] are the premier manufacturers of prestressed concrete posts in Australia since 2013. ACP manufacture a robust and long-lasting concrete post system for trellises. Lifetime Guarantee and Termite Proof, they will not Rot or Burn, and are safe for organic farming. They are re-useable and it is easy to attach wire using predrilled holes or simply use our strong brackets to secure trellis wires or support brace.

- Proven and trusted as a reliable manufacturer with consistent quality and supply
- Affordable long term trellis and fence solutions
- Australian family owned and operated company
- Made in rural Australia using Australian supplies
- ACP posts will last a lifetime
- An 80-100 year design life expectancy
- Available in various lengths up to 3m tall
- Posts are durable and driveable
- Manufactured using prestressed 40MPa concrete with specifically placed internal high tensile reinforcing strands
- Standardised sizing and quality finish
- Consistently spaced and sized predrilled holes
- Holes suitable for trellis cables, barb, plain and mesh wire
- Brackets to easily attach timber, metal or rail
- Suitable for any type of trellis configuration for vineyards, dragonfruit and tropical fruit and orchards. All types of fencing; civil, rural, internal or boundary fences.

Concrete End Assembly Strainer and Intermediate Posts up to 3000mm tall. Adjustable Brackets build ANY type or configuration of Trellis Support Assembly.
