

ALKOvin™ tin: High levels of oxygen barrier for the longest periods

PERFECT FOR LONG TERM STORAGE

The development of the ROPP closure **ALKOvin™ tin** has resulted in a liner with the excellent characteristics of having relatively soft tin foil, together with the PVdC film. Each layer in combination provides the highest achievable level of oxygen barrier protecting the contents of the wine. **ALKOvin™ tin** is perfect for wine that will be stored for longer periods.

ALKOvin™ tin Composition

ALKOvin™ tin

Each layer in combination provides the highest achievable level of oxygen barrier protecting the contents of the wine.
