

THREE NEW SNIPS FOR EASIER HARVESTING AND THINNING ACTIVITIES

The new FELCO picking and trimming snips are designed to meet the needs of professionals in arboriculture, greenhouse growing, viticulture, plant nurseries, florists or simply demanding gardeners.

Compact, lightweight and ergonomic, FELCO picking and trimming snips are particularly strong and durable thanks to their steel handles, while their soft polyurethane shock absorbers ensure maximum comfort and reduce muscle tension. These picking and trimming snips are suitable for right-handed and left-handed users alike.

Picking and Trimming Snips Range

FELCO 320, FELCO 321 and FELCO 322

FELCO 320, FELCO 321 and FELCO 322 picking and trimming snips have been designed to meet the needs of professionals.

TOOLS FOR PROFESSIONALS

Three different models are available depending on the trimming or harvesting work involved. They have been developed to meet the needs of professionals in arboriculture, greenhouse growing, viticulture, plant nurseries, florists or simply demanding gardeners.

DURABLE AND COMFORTABLE PICKING AND TRIMMING SNIPS

With their steel handles and chrome or nickel-plated blades, FELCO picking and trimming snips are durable and reliable. For their part, the shock absorbers reduce muscle tension and make your work painless.

FELCO 321

Main technical specifications

Blade

- Straight carbon steel blade with chrome coating
- Sap groove
- Rounded tips for precise cutting without damaging the fruit or vegetable
- Rust resistant

Handles

- Smooth and comfortable coating

Closure

- Easy and functional closure that can be used with gloves
- Polymer clasp

Shock absorbers

- Soft polyurethane for better shock absorption and reduced muscle tension to ensure maximum comfort during cutting
