Design to DeliveryÇ

Process of Design to Delivery

[Back to Index](#) 

Start Here:

Step 1.

To quote for you, we need to confirm product type, size, materials, print, options and quantity.

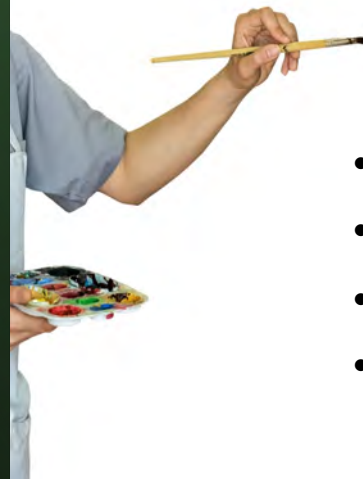

Click [here](#) to enter your request.
We will then get an email with your responses and reply ASAP.

Next steps:

2. We then quote the item and details.
3. Prepare a proof for approval.
 - a) Normally approved from artwork proof. We can supply photos and samples of similar products to assist.
 - b) Production samples can be made but are expensive (around \$400-\$500).
4. Upon approval, we will proceed to production – this takes approximately 12-14 weeks.
5. Upon receipt of items into our Melbourne warehouse, we will contact you to confirm delivery details and payment.

Delivery

I can plan 3 months ahead

All great things take time and most of the great designs we make are made to order in our advanced manufacturing plants overseas.

By planning, you will have unlimited options and our large volume production = lower costs.

I need it this week !

Stock Items are your option here.

Visit our website www.prapackaging.com.au to place orders for items in stock for next day dispatch.

I need another option !

Almost all our stock items can be overprinted. We do this via foil printing or screen printing. Simply select I NEED BRANDING on the website and we will arrange for you.

Design to impress

Our team has year of experience in design.

We will use this to offer ideas to ensure your packaging will stand out from the crowd.

and function

We also will check the packaging will be up to the task required. We do this by listening to you and the need and then applying the correct materials for the job.

Sustainability

When considering your packaging design, please consider three key options:

1. Recyclable – via everyday recycling bins
2. Compostable – It will break down naturally within 3 months.
3. Reusable – It can be used over and over.

All our paper based products can be made 100% recyclable, compostable and / or reusable.

Our magnet boxes have also been given the tick of approval by VISY as the magnet is easily removed in the recycling process.

Carry Bag

Design

MOQ 2000

Our customised printed paper bags are perfect for customers that want the ultimate packaging solution.

We manufacture printed paper bags as portrait, landscape, square or pyramid shaped in any size.

Our aim is to supply you with the best possible paper bags and to ensure that your brand stands out in the market place.

Paper Bags – Twist Handle

Kraft Paper Options

(Most popular option in bold)

130GSM BROWN KRAFT
140GSM BROWN KRAFT

Cost

Lowest

Print

Refer to uncoated colour chart. Brown paper will dull the print colour a little.

125GSM ECO KRAFT
140GSM ECO KRAFT

Low

Brown paper with a white coating for lower cost.

100GSM WHITE KRAFT
110GSM WHITE KRAFT
120GSM WHITE KRAFT
130GSM WHITE KRAFT

Medium

Best print quality on bleached kraft paper

Handles:

For Paper twist handle bags, we can offer the handles In white, brown or black. We can also dye them in a colour to match your logo.

Paper notes:

We generally only make twist handle bags out of kraft paper as it has longer fibers in the paper that makes it stronger the art paper.

Paper Bags – Special handle

Fancy Black

High

Use Screen, foil, Spot
UV or emboss as
options

Can be used with water varnish
or no finish on it.

[Back to Index](#)

Paper notes:

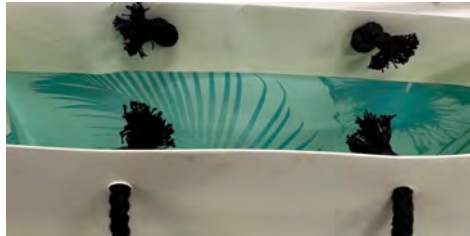

Kraft paper is about 50% more bulky than art paper.

For example, 130gsm kraft is the same thickness as 200gsm art.

Paper Bags – Special handle

Paper handle options

Connections

Knotted and tied inside the bag.
It's the most cost effective.

Inserted and glued.
Gives a clean finish.

Colour:

Black and white are standard.
For orders 5000+, we can offer to dye match the colour to the bag or your design.

Lengths:

We will work out the length needed to suit the size of the bag. For larger bags, you may want to consider a shoulder length option.

PP Rope

Durable and cost effective.
In diameter's of 4,5,6,7,8mm
5 or 6mm is our most popular

Paper Tape

Available in single or double thickness.
Looks like cotton, but is 100% paper !
In widths of 20, 25 or 30mm

Herringbone Ribbon

Classic feel
In widths of 20 or 25mm

Satin Ribbon

For that silky touch
In widths of 20 or 25mm

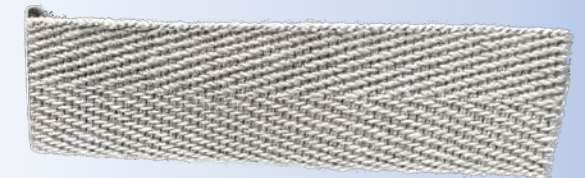

Cotton Rope

For a natural feel.
Compostable (but not recyclable).
In diameter's of 4,5,6,7,8mm
5 or 6mm is our most popular

Paper Rope

As above in a rope style
In diameters of 4,5,6,7,8mm
5 or 6mm is our most popular

Grosgrain Ribbon

Distinctive appearance
In widths of 20 or 25mm

Paper Bags

Printing options

Blind embossing

For a subtle print appearance that adds to the touch point for the customer

Clear Spot UV

Another great way to display branding and shapes in an appealing way.

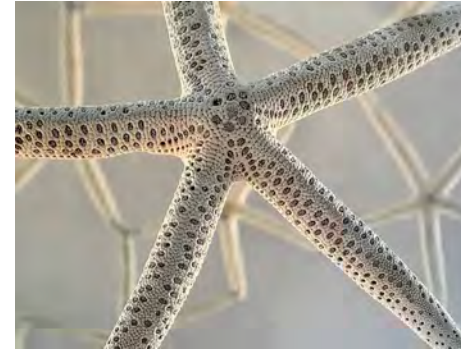

FOIL

Mostly known for metallic colours, but is also great in solid colours onto kraft papers.

CMYK

High quality reproduction of all images with this printing method

PMS

We can match any colour needed.
Uncoated papers (PMS -u)
Coated paper (PMS -c)

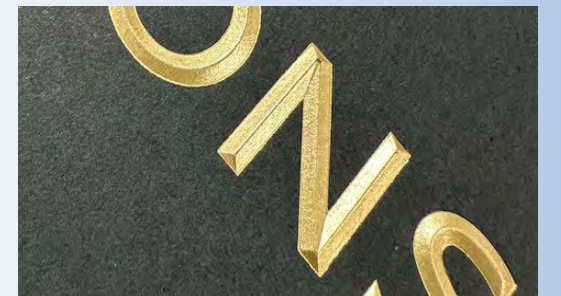

Embossed FOIL

Heavy Emboss

Relief Emboss

Roof Emboss

Paper Bags

Paper finishing options

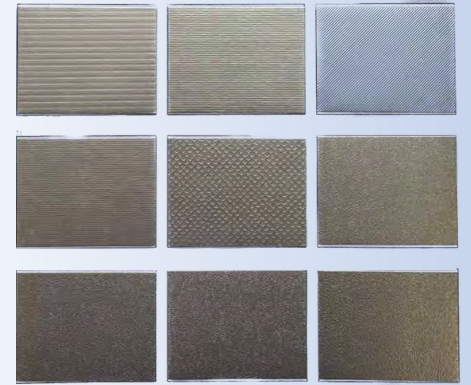

Water varnish

Water varnish improves the print appearance and enables the bag to be 100% compostable and recyclable.

Lamination

Lamination gives the paper high strength and even better print appearance than water varnish. It is available in a gloss or matt finish, but matt is our suggested choice to reduce glare.

Texturing

In addition to above, we also have a large range of texture embossing we can apply to the paper.

Click [here](#) to download the texture book for bags.

Paper Bags

Design ideas:

Ribbon Pull Through
Ideal for small items and to secure them from falling out.

Reusable bags

MOQ 500

NON WOVEN BAGS

We produce non woven bags using heavy-duty fabric that makes these bags extremely durable, reusable and versatile. These eco friendly tote bags are a great alternative to the supermarket bags.

We print with a minimum of three coats of ink for the very best print quality.

Our eco bags are available in any size as tote bags, shoulder bags, back packs, drawstring bags or as satchel style bags.

COOLER BAGS

Our eco bags can also include thermal insulation material that make them perfect for keeping your refrigerated shopping cool.

These eco friendly bags are available in a wide range of colours and can be made in any size or shape.

COTTON BAGS

We manufacture cotton bags from 100% natural organic or dyed cotton. Our cotton bags are the definitive 'eco' friendly packaging solution. These printed cotton bags make an ideal gift bag or shopping bag and have the added advantage of a long lifespan and will be reused and seen on the streets with your brand printed on them for many years.

We can produce cotton carry bags in a wide range of colours and cotton weights. These printed cotton bags can also be produced in several styles and sizes.

Suit Covers

Garment Bags

MOQ 500

Our suit covers and garment covers can be made from either non woven, PE/EVA or nylon materials, with a range of useful and high quality features including hoods, metal rings, windows, handles, pockets and high quality zippers.

Our suit covers and garment covers are also printed a minimum of three times to ensure the highest quality print result.

Our suit covers and garment covers are also available in a range of styles and size.

Plastic bags

MOQ 5000

Our premium printed plastic bags provide customers with a stylish yet affordable product.

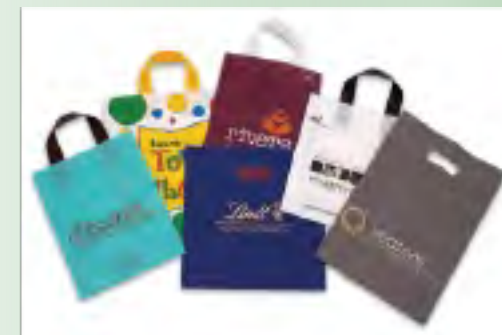

The print quality of our plastic bags is among the very best in Australia, and all of our plastic bags are either recyclable or degradable.

Finishes

We supply plastic bags in a variety of different materials such as low density and high density polyethylene and very clear polypropylene in any specified thickness.

Handles

We provide a wide range of handles that are available for custom made printed carry bags. Including die cut, soft loop, hard loop and cotton rope handles with metal eyelets.

Satchels & Mailers

MOQ 5000

Our online satchels are made from quality high density co-extruded material.

They are available in white with grey inside and a double sided adhesive strip.

We also produce bubble mailers – a great e-commerce solution to ensure the package arrives safe and secure.

A part of
The Packaging
Group

Since 1973

PR Packaging is part of The Packaging Group, a proud family-owned company that has been supplying the best quality packaging since 1973.

We have developed a strong reputation by successfully supplying our quality printed paper bags, plastic bags and nonwoven bags to thousands of leading retail and corporate customers Australia wide and around the world.

Our products are priced most competitively to win orders, whilst maintaining the very highest quality.

With our experience in producing the highest quality packaging we will ensure that you achieve your desired results by working together with you or your design team and providing the best possible service and advice.

With some states in Australia looking to reduce the use of some supermarket style plastic bags, we can work around these restrictions and fill any requirements that a retailer may need.

The environment also remains in the forefront of our mind, we manufacture all our paper bags with environmentally friendly adhesives and water-soluble inks.
