# Selects

NINA'S MODERN CLASSICS

**From classic to contemporary,  
Nina's Selects embraces colour and quality.**

Comprising modern classics and up-to-the-minute designs created to the highest standard, this range is the 'go-to' for modern jewellers seeking to round-out their offering.

Including stackable diamond bands, diamond solitaire stud earrings, on-trend initial jewellery, and more, these bejewelled basics are Nina's "Selects".

## The making of Nina's Selects

### Natural coloured diamonds

The jewellery in this collection has been created from all-natural, ethically-sourced diamonds, the only exception being the pieces containing black diamonds. All black diamonds have been heat-treated for colour-consistency and superior strength.

### Premium metals

Whether crafted from sterling silver, 9 or 18 karat gold, only the finest metals have been used to produce each ring, earring, necklace and bracelet.

Each piece is available in your choice of metal; white, yellow or rose gold in 9 or 18 karat, and sterling silver. Please advise us of any customisations required when you place your order.

### Made by master jewellers

Designed in Australia and produced by our Australian-trained jewellers, these pieces are made to the highest modern standards, and exacting levels of quality control by our Western Australian-based master jewellers.
