

JUCLAS MFTC CROSSFLOW

- ⊕ AVAILABLE IN FULLY AND SEMI AUTOMATIC MODELS
- ⊕ FLEXIBILITY TO ADD EXTRA MEMBRANES LATER
- ⊕ EASE OF OPERATION WITH A TOUCH SCREEN DISPLAY
- ⊕ WIDE BORE 1.8MM CAPILLARIES FOR TURBID WINES
- ⊕ 15m² TO 450m² SYSTEMS AVAILABLE.

The Juclas MFTC provides filtering technology that respects the organoleptic and structural characteristics of your wine, yet with the ability to process significant volumes on a daily basis.

The MFTC utilises hollow fibre membranes that are both economical and durable. These membranes are extremely versatile with the ability to filter juice, sparkling and still wines pre-bottling.
