## The English Ladies Co

Introducing a brand new collection of premium ceramic figurines by the English Ladies Co. Featuring sayings from Michael Bond's original books and famous London icons to represent the story's setting. The timeless designs of these fine china figures are inspired by Paddington's first illustrator, Peggy Fortnum. The English Ladies Co have harnessed Paddington's sentimental legacy in their heirloom gifting.

Presented in a branded, collectors gift box, this range is perfect to dress nurseries and bedrooms, sending well wishes and smiles to cherish forever.

## EDGE SCULPTURE

*Contemporary Sculpture  
for the Home*

*New for 2025*

Our range includes 13  
busts and 28 figures.

See the full range here.

Presenting a striking collection of emotionally evocative, fiercely modern, contemporary sculptures. Designed in England by Matt Buckley at his studio in Shropshire, Edge Sculpture is a collection influenced by style rather than subject. The mix of form, light and texture gives a unique feel to each individual piece.

Each subject has originally been sculpted from clay, which allows the creation of pieces that deliver both a dynamic and organic feel. Cases and moulds are then developed from the original pieces to ensure the faithful reproduction of the original clay sculpture with a special blend of marble stone casings and resin.
