INSPIRING
PEARLS

INSPIRINGPEARLS.COM.AU

Inspiring Pearls

Inspiring Pearls is a Sydney based pearl jewellery wholesaler. We aim at bringing simple and elegant pieces to the market at very affordable prices.

We have an extensive range of loose pearls, strands and finished Jewellery. This is enabled by our close ties with pearl farms in China's pearl hub, Zhuji.

Our product is unbranded which enables you to select pieces that suit your clientele and reflect your store's identity. Support is offered with product images and a one-year warranty on all products against manufacturing faults.

In addition, to accommodate individual tastes, we can string pieces to requested lengths and offer a choice of clasps when an order is placed.

Customer service and satisfaction is of prime importance to Inspiring Pearls. Our experienced sales agents visit regularly to showcase the Jewellery and are available whenever assistance is required. In the meanwhile, we highly encourage you to register with us via

<https://inspiringpearls.com.au>

to view our collections, prices or order online.

This catalogue features an extensive range of pearl earrings, pendants, necklaces and bracelets.

As there are endless varieties of freshwater pearls and designs evolving constantly, we cannot list all products in the catalogue, so please follow our Facebook page and Instagram for the latest release and promotions.

CULTURED PEARL

Cultured pearls are formed when humans intentionally introduce an irritant into the oyster or mussel. To protect itself from this irritant, the oyster produces cells that secrete multiple layers of nacre that eventually coat the foreign matter to become the cultured pearl. Cultured pearls have the exact same properties as those formed naturally. The only difference is that they have a helping hand at getting the natural process started.

All pearls in today's commercial market are cultured in oysters and are grown on Pearl Farms.

FRESHWATER PEARL

Freshwater Pearls are the up-and-coming favourite variety among pearl lovers and pearl connoisseurs alike. Freshwater Pearls of today now can rival high-quality Akoya Pearls for their colour, lustre and round shapes with ever-improving culturing techniques.

Traditional tissue-nucleated Freshwater pearl variety is available in white, silver, pink, orange, yellow and purple. They can be raised in various shapes, such as round, semi-round, potato, rice, short rice, long rice, water drops, flat, stick and twin face.

A new type of Freshwater Pearl-Edison pearl came into the market in 2014. The mussel is nucleated with only ONE bead a time, like south sea water pearls. It is round and size range from 10-16mm. It comes with a variety of colours from white, peach, pink, metallic pink, metallic gold and light and deep purple.

PEARL GRADING

Unlike diamonds, Pearl Grading is NOT standardised. There are several grading systems exist.

Generally speaking, the lustre of a pearl describes the way its surface seems to glow and reflect light, and it is considered one of the most obvious and important features of a pearl's quality. High quality lustre creates a reflective mirror-like surface while poor lustre looks milky or chalky.

The surface quality of a pearl, also known as its skin, is judged by the number of existing spots or blemishes. Fewer flaws increase the value of the pearl. In some cases, however, the imperfection of divots, dents or scratches also serves as a testament to its natural origins (It's real!) as well as providing a unique form of identification for its owner.

For more knowledge of pearls, please refer to the *Pearl Course* compiled by Jewellery World.

OUR GRADING SYSTEM

To help you get to know our pearls better, here we introduce to you our grading system. We adopt a system that grades the lustre and surface of a pearl from A to 5A, with A representing fair and 5A being the top 0.01% of freshwater pearls. We normally stock and use 2A to 4A grade pearls on strands, 3A-4A pearls on pendants and earrings.

Freshwater Pearl Strands Grading			
AAAA(4A1)	AAA(3A1)	AAA2(3A2)	AA1(2A1)
strong lustre, 95% or greater clean surface, pearls are round. imperfections are only visible at close look, excellent matching	strong to good lustre, 90% or greater clean surface, pearls are round to the eye, occasional imperfections are slightly visible, excellent to good matching	The same as 3A1 except the shape is semi-round.	good to moderate lustre, 85% or greater clean surface, pearls are off round, small imperfections are visible on the surface, fair to good matching
