

SOLIDS FEED TO CENTRIFUGES

WINE AGITATION TECHNOLOGY

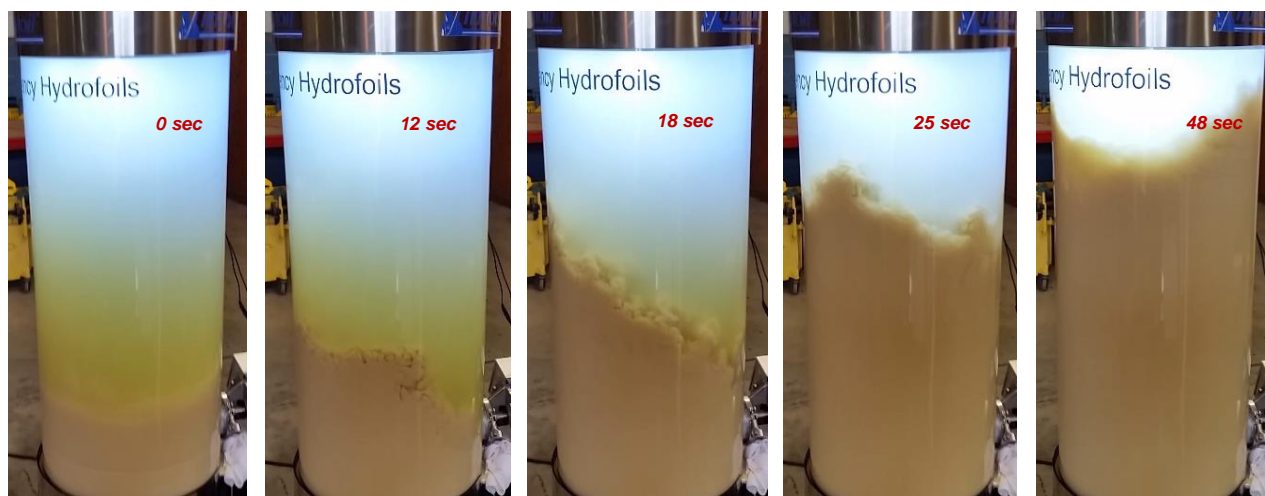

FOR CONSISTENT SOLIDS FEED RATE

CHEMPLANT agitators ensure uniformity of suspended solids feed, leading to better and more reliable performance from the centrifuge.

CHEMPLANT Agitators are used extensively throughout Australia, New Zealand and the USA wine industry (under the VINFOIL® brand).

- **More reliable performance of centrifuge**
- **Recover more wine**
- **Easily adapted to cellar automated control system**
- **Less labour for final tank clean out**

PROGRESS OF SUSPENSION OF SOLIDS (time in seconds)
Demonstration tank solution 15% solids; 210lt
