

# Barrel Racks

## Overview

Gorilla Products manufacture innovative barrel racks for wineries and distilleries. Our Founders racks are an elegant solution for presenting small format barrels, ranging in size from 20L - 50L. Our Mini racks hold 100L barrels and Barrique racks hold 200L - 228L.

These racks are a safe, practical and convenient way to increase your storage footprint within your warehouse.

## Rack Finishes

### Pre-galv

Pre-galv (sometimes referred to as Duragal) means the steel tube has a thin coating of zinc solution to minimise corrosion. Once a barrel rack has been fabricated, a coating of cold galv is applied to the areas of the cuts or welds to protect the visible area.

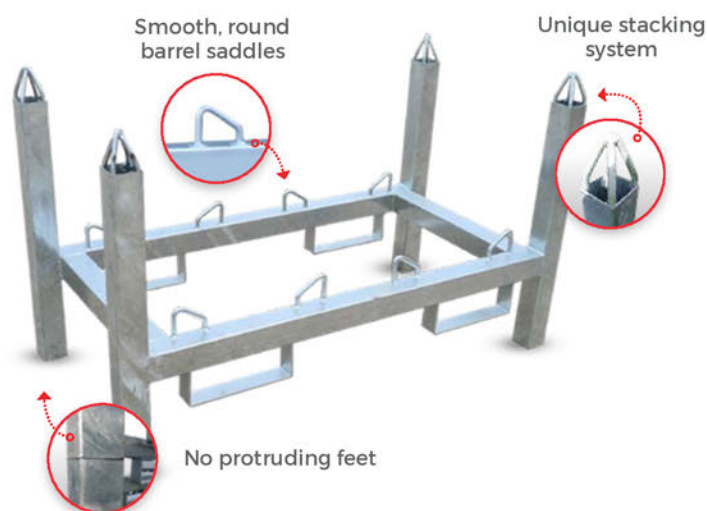

### Hot-dip galvanised

Hot-dip galvanising is an 8 step process of completely immersing the rack into molten zinc, to ensure interior and exterior coating of the finished product. This coating provides the highest level of protection and longevity.

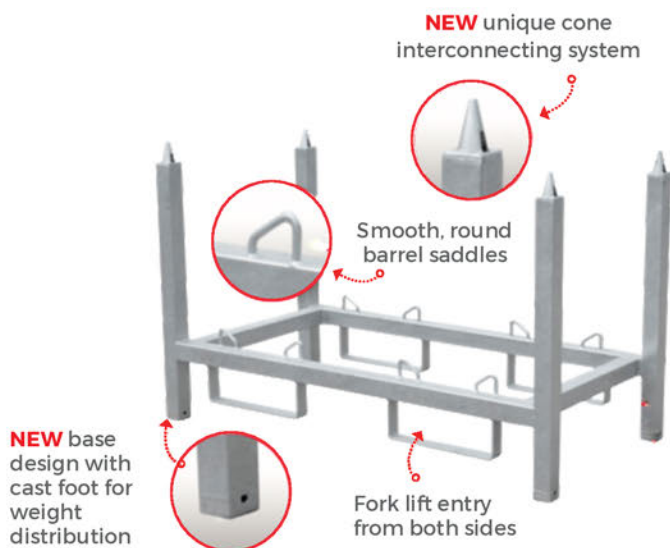

### Powder-coated

Powder-coated finish is a dry finishing process created by heat that causes a dry powder to fuse to the surface of the metal. The powder is use instead of paint and is known for its durability and great looks!

### Barrel Master

### Barrel King

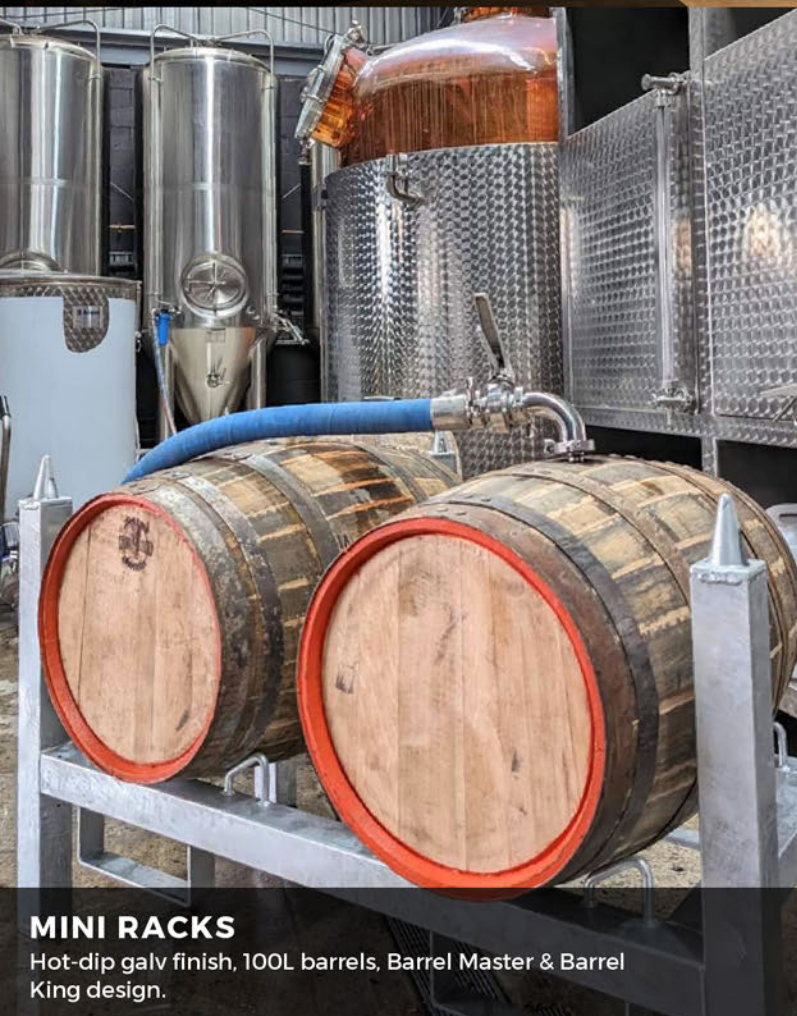

RACK TYPE	RACK FINISHES	NO. OF BARRELS	TO SUIT BARREL	MAX. STACKING HEIGHT	MAX. NET KG/RACK	MAX. WORKING LOAD LIMIT/RACK
Founders	Pre-galv Hot-dip galv Powder-coated	4	20-50L	4 high	35kg	300kg
Mini	Pre-galv Hot-dip galv Powder-coated	2	100L	8 high	32kg	300kg
Barrique	Pre-galv Hot-dip galv Powder-coated	2	200-228L	8 high	39kg	600kg

## FOUNDERS RACKS

Powder-coated finish, 20L barrels & Barrel King design.

## MINI RACKS

Hot-dip galv finish, 100L barrels, Barrel Master & Barrel King design.

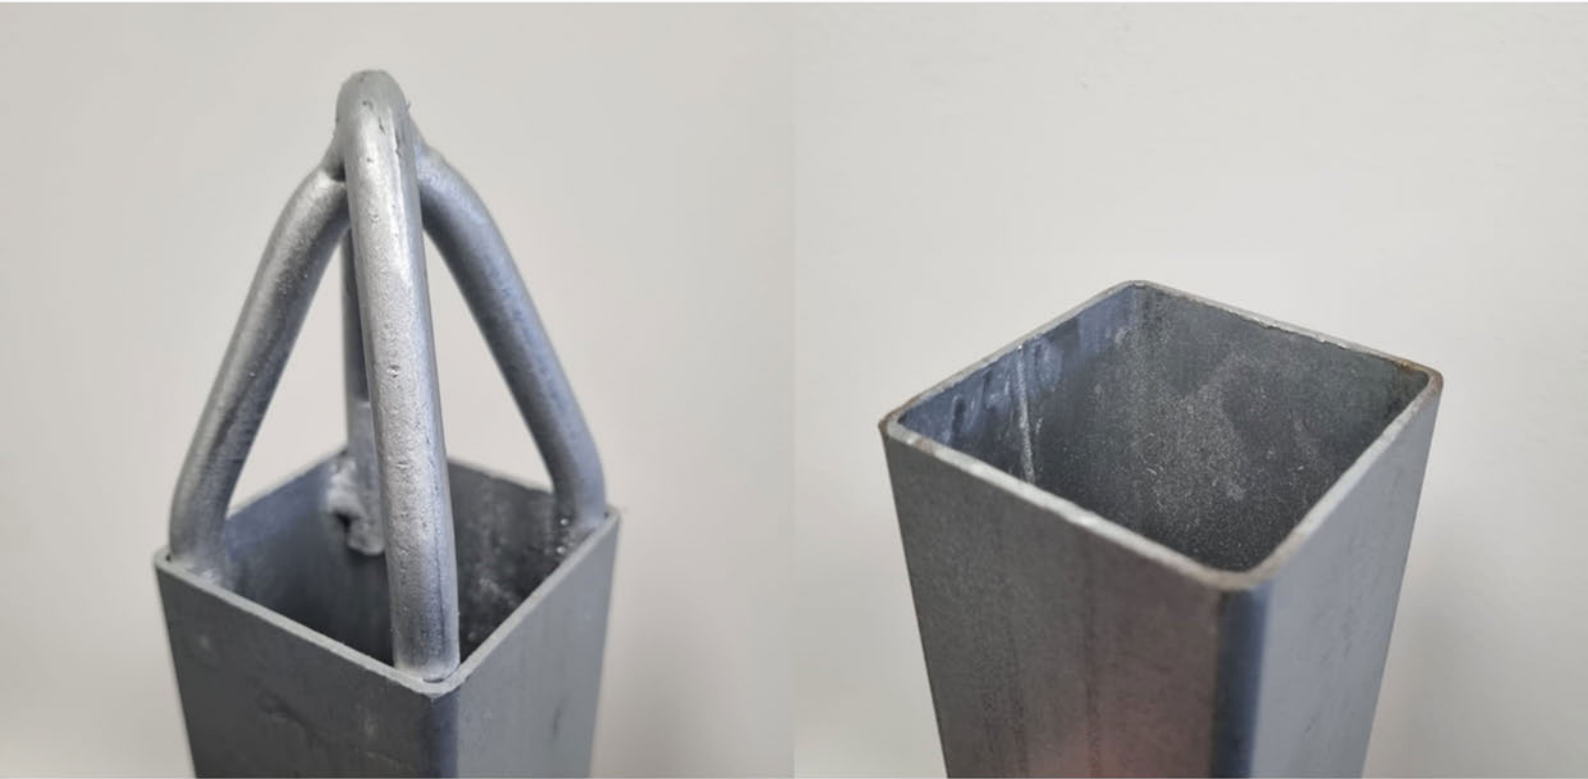

## BOURBON RACKS

Pre-galv finish, 225L barrels & Barrel Master design.
