Optional Extras:

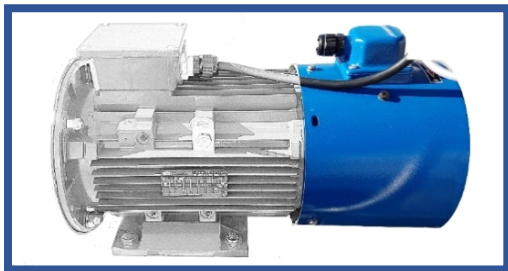

MARKSMAN
SMART PUMPS

Enclosure ventilation:

Recommended if the pump will be operated in the sun, or if running for extended periods in a hot environment.

Forced motor ventilation:

Recommended if the pump will be running at low speeds for extended periods.

Auto/manual:

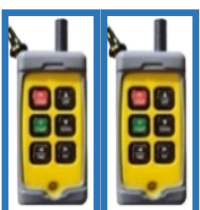

Allows for automatic control of pump from an external source. Multiple options are available for control signal.

Manual bypass:

Bypass valves allow for easier priming and cleaning of lines and hoses, and can also provide basic speed control.

Radio remote:

Upgrade to radio control on Starter & Professional packages (included in Elite as standard).
2 handsets and IP66 storage box included.
