	FACULTY DEVELOPMENT CONCURRENT WORKSHOPS		
3.00pm – 4.05pm	FD1A: Embedding Indigenous Culture Meaningfully <i>Venue: Conway 4 – 5</i> Facilitators: Kaycee Soutar, Lynness Kokiri-Leach, Te Pora Ehau, Jo Cole Understanding how to acknowledge the original people of the land and the ancestral history of the place of learning is vital to creating safe spaces for people to learn and grow. This session will briefly describe the concept of Tamariki (children) in Maori culture and discuss the importance of mihi whakatau (welcome process) in Maori Tikanga.	FD1B: Artificial Intelligence in Medical Education <i>Venue: Conway 2 - 3</i> Facilitators: Victoria Brazil, Eve Purdy What if we replaced mannikins and clinical equipment with flat plastic replicas? Heavy mannikins, fickle wireless connectivity, audio-visual gear, and clinical consumables (drugs and equipment) can be daunting challenges for even experienced simulation faculty. In this workshop participants will explore an alternative for team training: Visually Enhanced Mental Simulation (VEMS). This simplified approach -laminated patient icons, assessments and ‘treatments’ - is accessible, efficient and a great addition to the simulation.	FD1C: Effective Feedback Strategies for Trainees and Supervisors <i>Venue: Conway 1</i> Facilitators: Suzanne Hamilton, Heidi Baker Feedback often challenges clinical supervisors and trainees, and they often have different views about what it is and what it means. This workshop draws on the work by CRADLE and will provide an opportunity to exchange perceptions of what a ‘good supervisor’ looks like and what a ‘good trainee’ looks like in teaching/learning roles in clinical practice. Strategies for enhancing practice as a supervisor and trainee will be explored.

	Aotearoa New Zealand explore practical approaches to building paediatric emergency medicine capability within mixed ED settings. Drawing on experience from hospitals of varying sizes and locations, the panel aims to collect and share challenges such as maintaining clinical exposure, supporting staff confidence, and adapting to resource differences. Share your experience with us and others or join us to get some ideas for your setting.	major critical incidents, but by the cumulative "wear and tear" of daily moral distress. This workshop explores how implementing immediate, voluntary post-event "hot" debriefs can significantly reduce short- and long-term trauma, ultimately protecting the health of our staff and the communities they serve.	A hands-on workshop where you will learn practical skills to use in your next appropriate patient encounter. Participants will learn key sonographic patterns in the assessment of common paediatric presentations such as pneumonia and bronchiolitis. Emphasis will be placed on image acquisition, interpretation, and clinical integration.	Experience manaakitanga, the spirit of hospitality, generosity, and care, as Ngāi Tūāhuriri kaiārahi (guides) welcome you onto the Ōtākaro Avon River with an official mihi whakatau. Learn the kaihoe warm-up and kaihoe haka. Paddle the spring-fed waters of a mahinga kai (traditional food source) that sustained generations.
