

## PRELIMINARY PROGRAMME AS AT 26 MARCH 2026

### FRIDAY 1 MAY 2026 – WORKSHOPS

Registration to attend the workshops will be an additional charge.

7.30am	Registration desk open Heaphy Pre Function, Claudelands Events Centre		
	<b>Concurrent Workshops</b>		
8.30am – 10.00am	<b>Workshop A - Later Medical Abortion Care</b> Venue: Brooklyn 1 <i>Minimum/maximum numbers apply</i>	<b>Workshop B - LARC Training</b> Venue: Brooklyn 2 <i>Minimum/maximum numbers apply</i>	<b>Workshop C - Vasectomy</b> Venue: Brooklyn 3 <i>Minimum/maximum numbers apply</i>
	<b>Facilitator: Maggie Walker Mendez</b>  Please join us for a candid and compassionate discussion of medical abortion care after the first trimester, including advanced gestations. This talk coincides with the roll-out of the NZCSRH’s final abortion education module: Later Medical Abortion, and will focus on the practical aspects of abortion provision. Topics will include the consenting process; person-centred care, language use; medications; managing pain and discomfort; considerations for expulsion/delivery; complications; management of products of conception/peepi/taonga/fetal remains; and aftercare.	<b>Facilitators: Helen Paterson, Katie McCullough and Luci Montgomerie</b>  We will be running a workshop covering: LARC counselling, informed consent, insertion and removal with simulation, and management of complications and complex cases.	<b>Facilitator: Phoebe Hunt</b>  Do you want to improve your contraception counselling?  Come along to this workshop where we will cover vasectomy basics – details on the procedure, patient selection/counselling, and common complications and their management.  Questions are encouraged – there are no stupid questions!
10.00am – 10.30am	<b>Collab Break with the Industry - Morning tea</b>		
10.30am – 12.30pm	<b>Workshop D - Abortion Training   Early Surgical</b> Venue: Brooklyn 1 <i>Minimum/maximum numbers apply</i>	<b>Workshop B – LARC Training Continued</b> Venue: Brooklyn 2 <i>Minimum/maximum numbers apply</i>	<b>Workshop E - Erectile Dysfunction / Premature Ejaculation Update - Clinician Toolkits in Primary Care</b> Venue: Brooklyn 3 <i>Minimum/maximum numbers apply</i>
	<b>Facilitators: Coleen Caldwell</b>	<b>Facilitators: Helen Paterson and Katie McCullough</b>	<b>Facilitators: Luke Wee and Ryan Sunde</b>

	<p>This hands-on workshop provides practical training in first-trimester uterine aspiration for the surgical management of abortion and miscarriage. Designed for health care professionals involved in early pregnancy care, the session combines concise evidence-based review with skills-focused simulation. Participants will learn patient selection, counselling and consent, pain management options, infection prevention, step-by-step procedural technique (including manual and electric vacuum aspiration), and complication recognition and management.</p>		<p>Revisit practical evidence-based consultation approaches to erectile dysfunction and premature ejaculation in primary care. This workshop will provide an overview of men's sexual health, pathophysiology of common male sexual dysfunctions, clinical and psychosocial management, indications for specialist referrals and hands-on demonstration of common treatment modalities.</p>
12.30pm – 1.00pm	<b>Collab Break with the Industry - Lunch</b>		
1.00pm – 2.30pm	<p><b>Workshop F - Later abortion workshop: Surgical abortions &gt;14 weeks</b> Venue: Brooklyn 1 <i>Minimum/maximum numbers apply</i></p>	<p><b>Workshop G – Abnormal Uterine Bleeding</b> Venue: Brooklyn 2 <i>Minimum/maximum numbers apply</i></p>	<p><b>Workshop H - Scrotal   Penis Dermatology</b> Venue: Brooklyn 3 <i>Minimum/maximum numbers apply</i></p>
	<p><b>Facilitator: Rachel Rapkin</b> Surgical abortion training is not routinely provided O&amp;G or GP training in Aotearoa New Zealand, yet patients have a legal right to obtain an abortion &lt;20 weeks by their desired method. This session provides an overview of later abortion care, then details the ins and outs of later surgical abortion provision. The session concludes with a hands-on simulation session.</p>	<p><b>Facilitators: Helen Paterson and Katie McCullough</b> Come to learn about PALM COEIN - when should you do what? Who is really going to benefit from a Mirena and do you really need to do that pipelle? Then what do you do when the result comes back with ... disordered endometrium !!!!</p>	<p><b>Further Information to come</b></p>
2.30pm – 3.00pm	<b>Collab Break with the Industry - Afternoon tea</b>		

3.00pm – 5.00pm		<b>Workshop J - Management of Prolapse</b> Venue: Brooklyn 12 <i>Minimum/maximum numbers apply</i>	<b>Workshop K - Vulval Genital Dermatology</b> Venue: Brooklyn 3 <i>Minimum/maximum numbers apply</i>
		<b>Facilitator: Helen Paterson</b> This interactive workshop equips health practitioners with the essential skills to confidently assess, support, and manage pelvic organ prolapse in a primary care setting. A blend of theory, case studies, and practical demonstrations makes this session ideal for nurses seeking to expand their scope and strengthen access to pelvic health services within their communities.	<b>Further Information to come</b>
5.00pm	Day Close
