

Why do I use GIS

- Project development
- Project rationalisation
- Orientation in a catchment

What layers could I see?

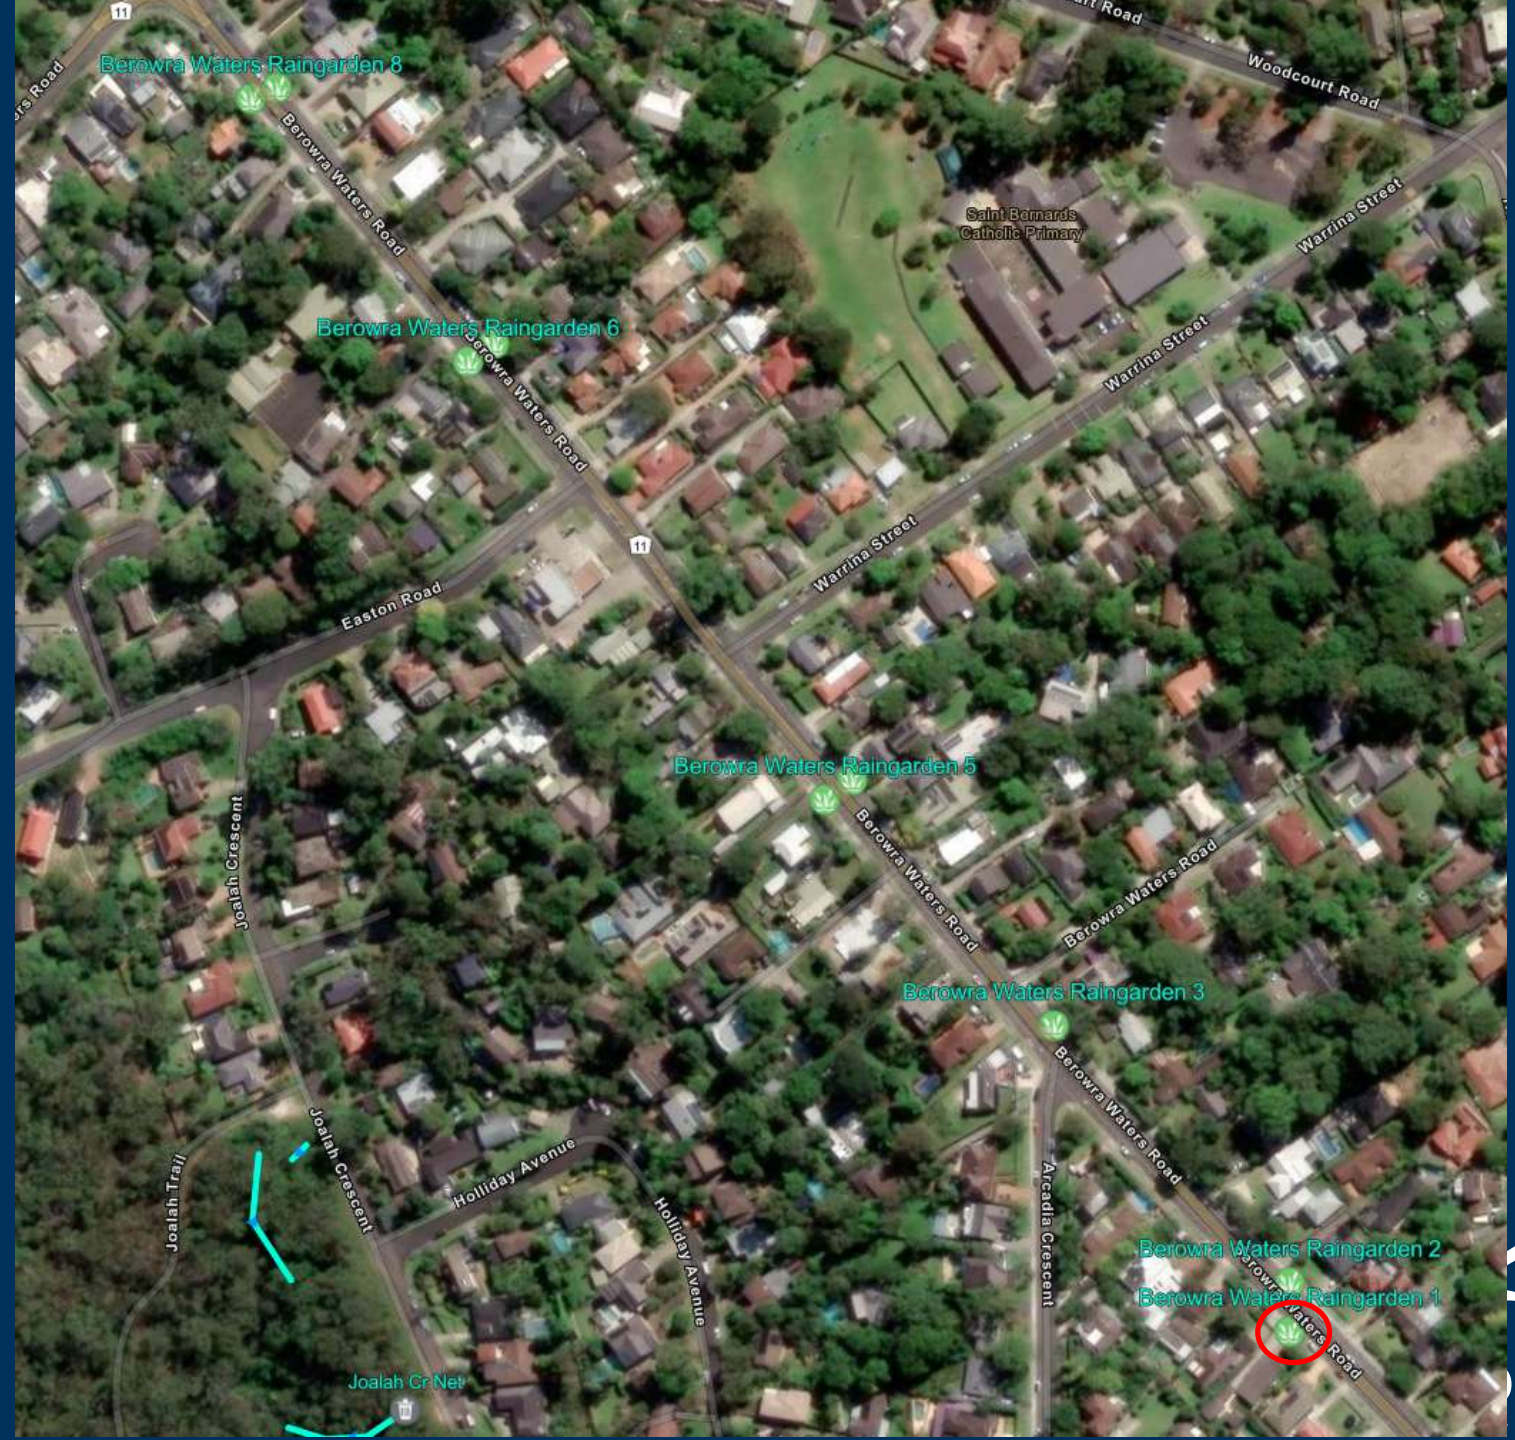

What problems did I try to solve? (What and why I went to market)

- SQID catchments

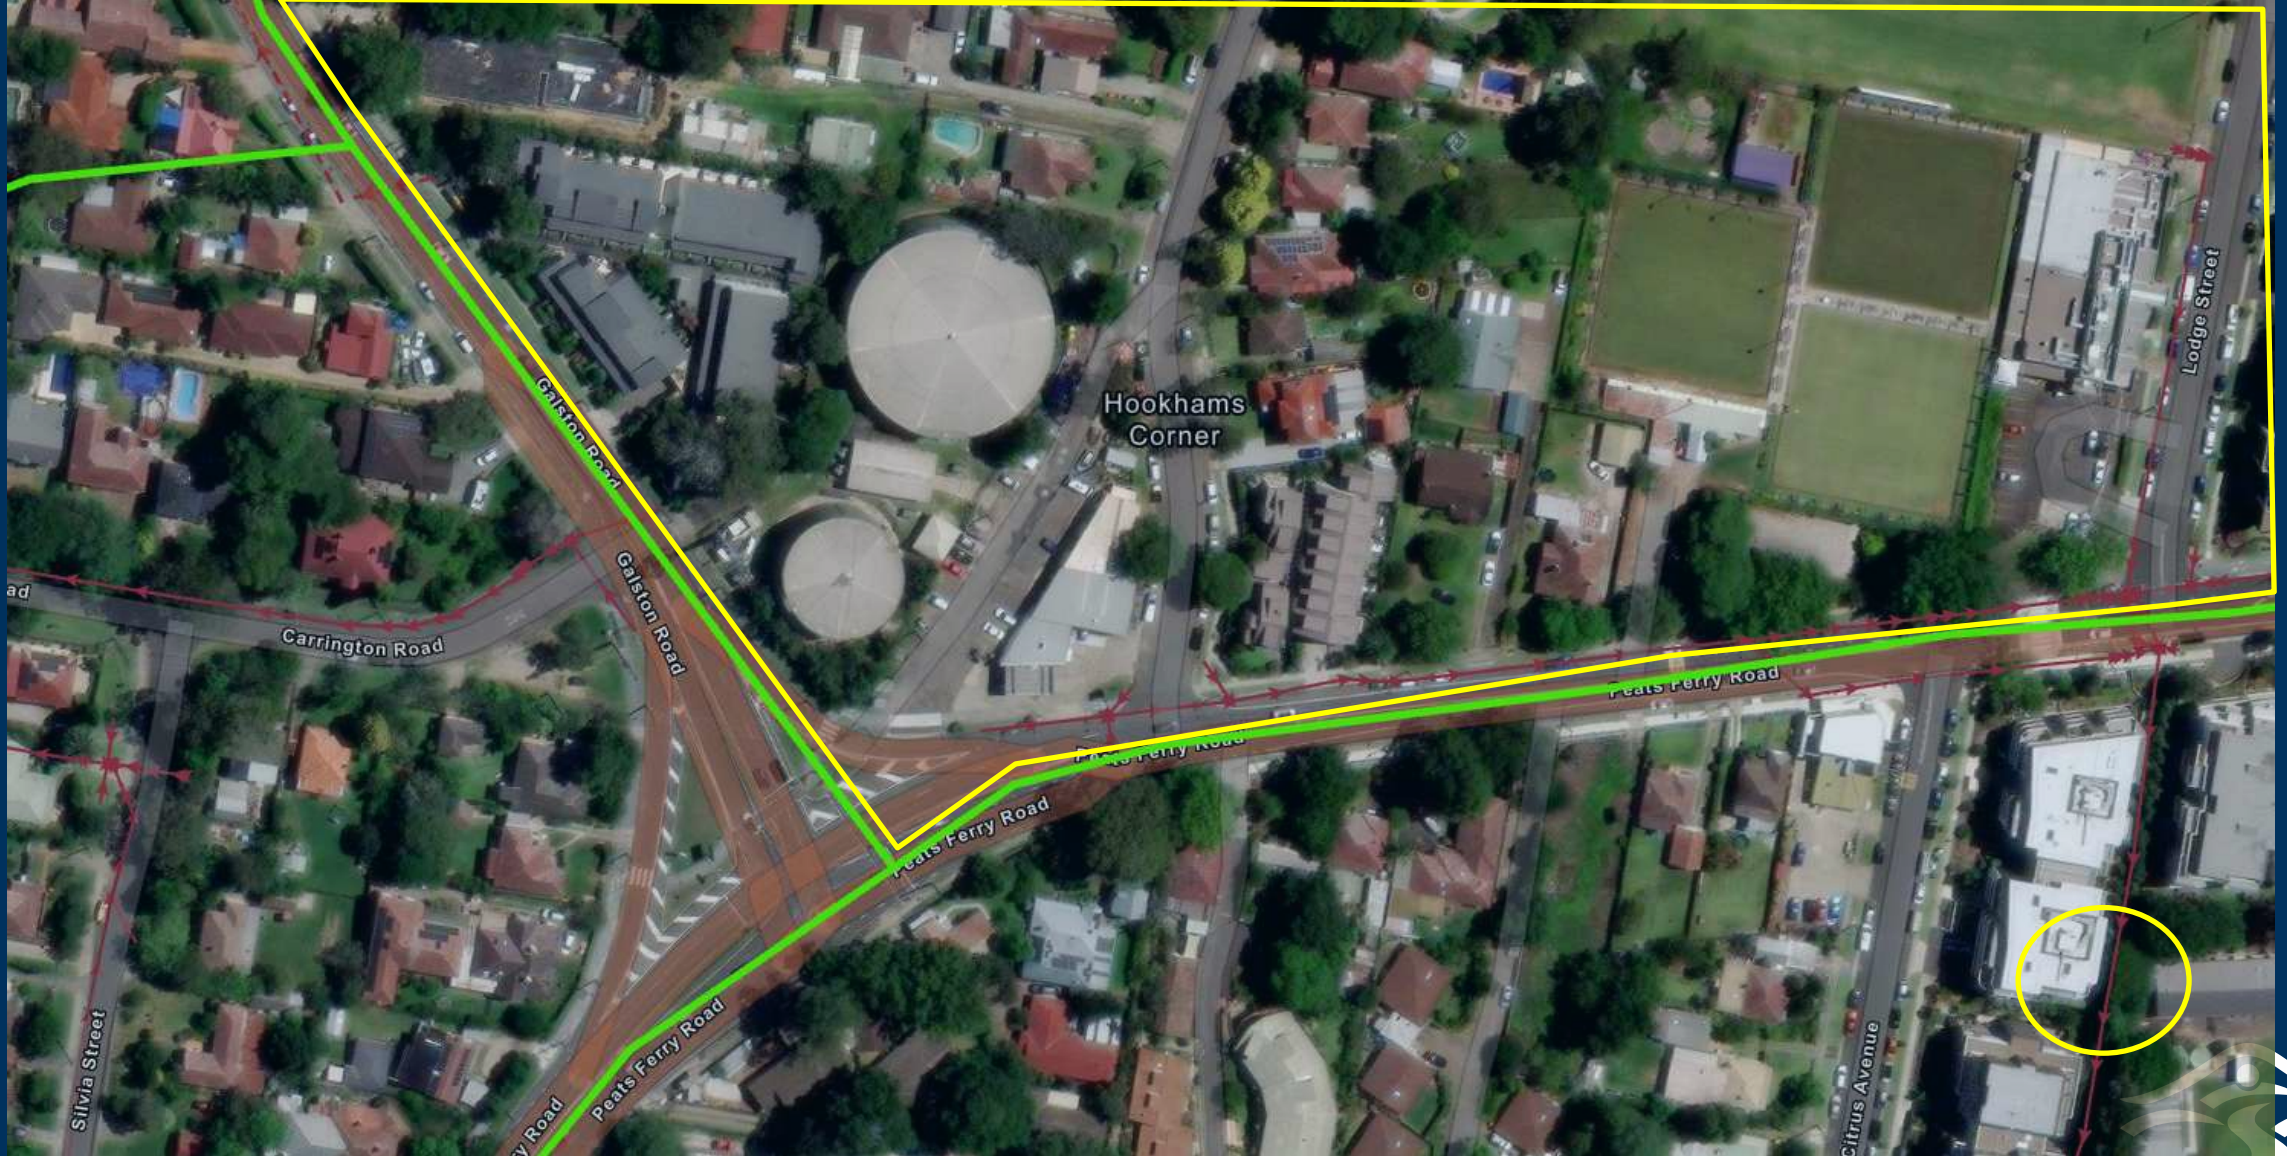

SQID Points

SQID polygons

Adjusted catchment layers

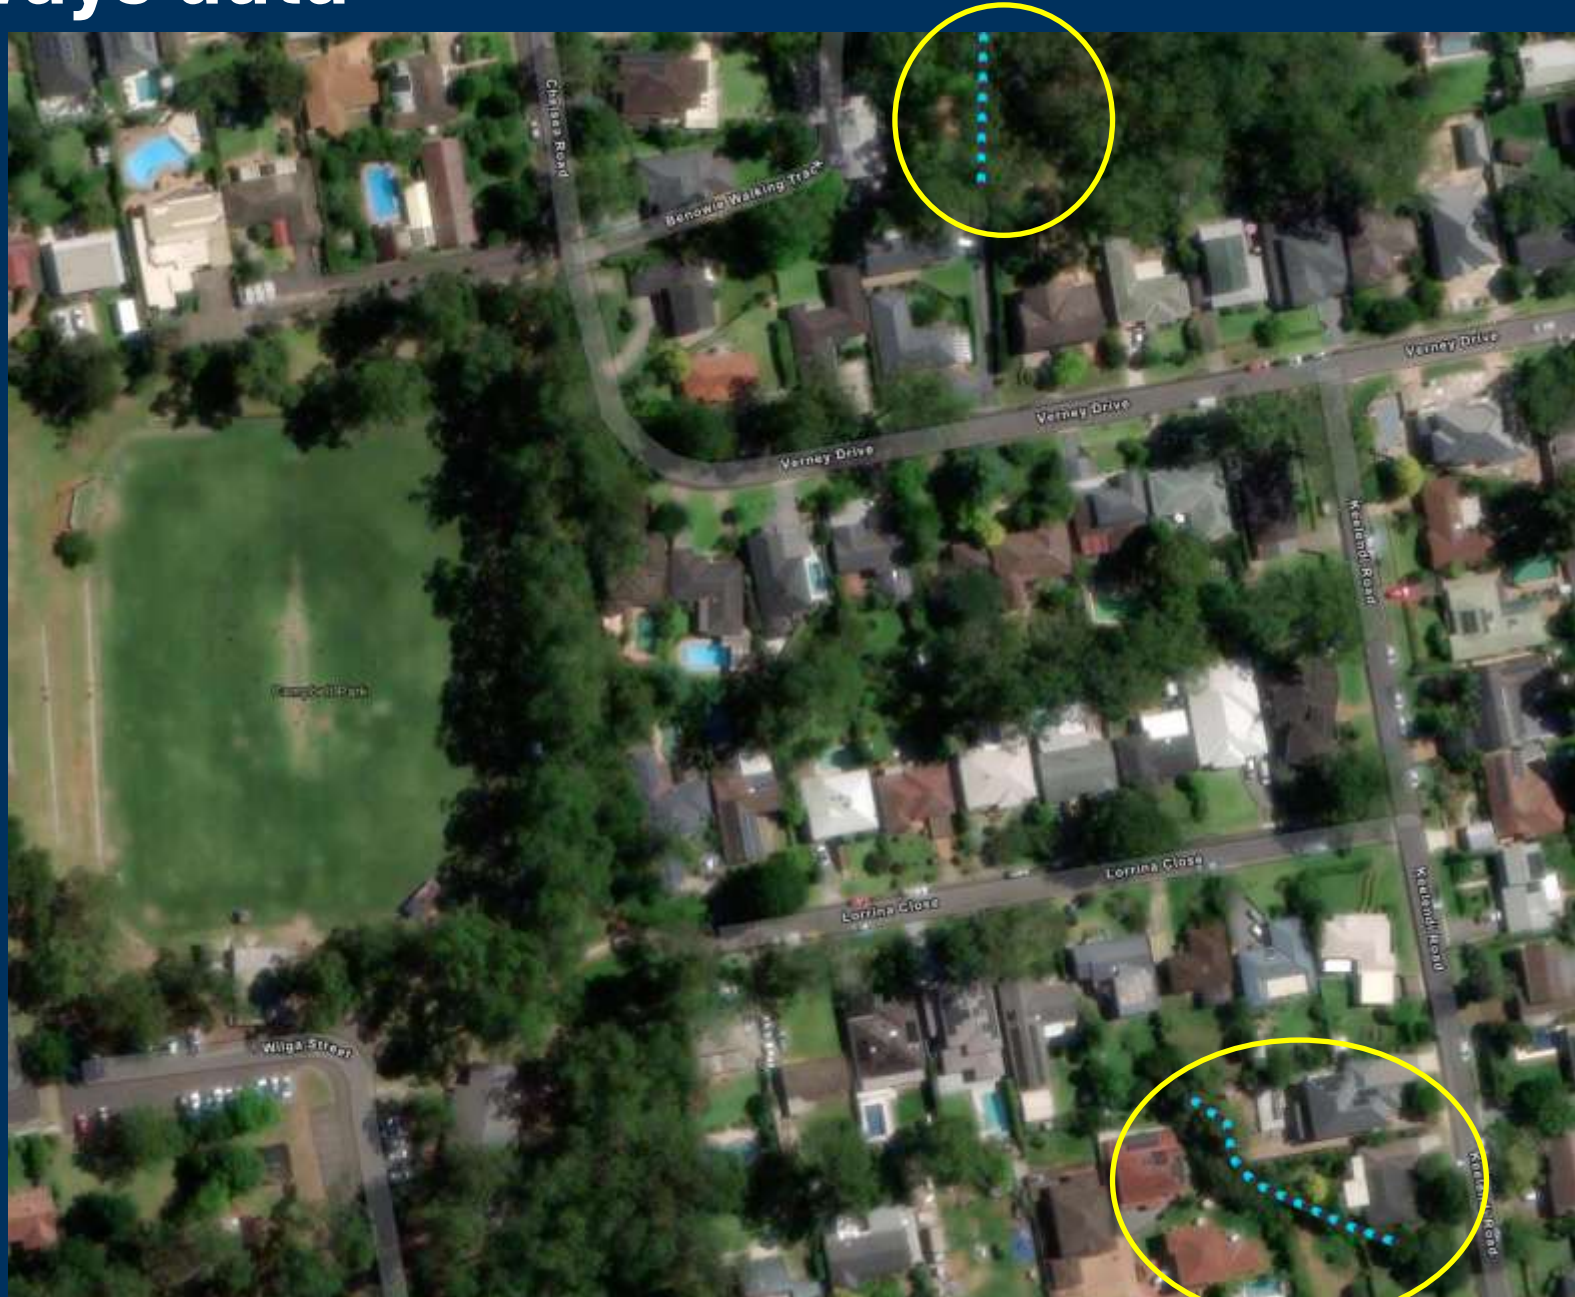

End of Pipe Catchments

Waterways data

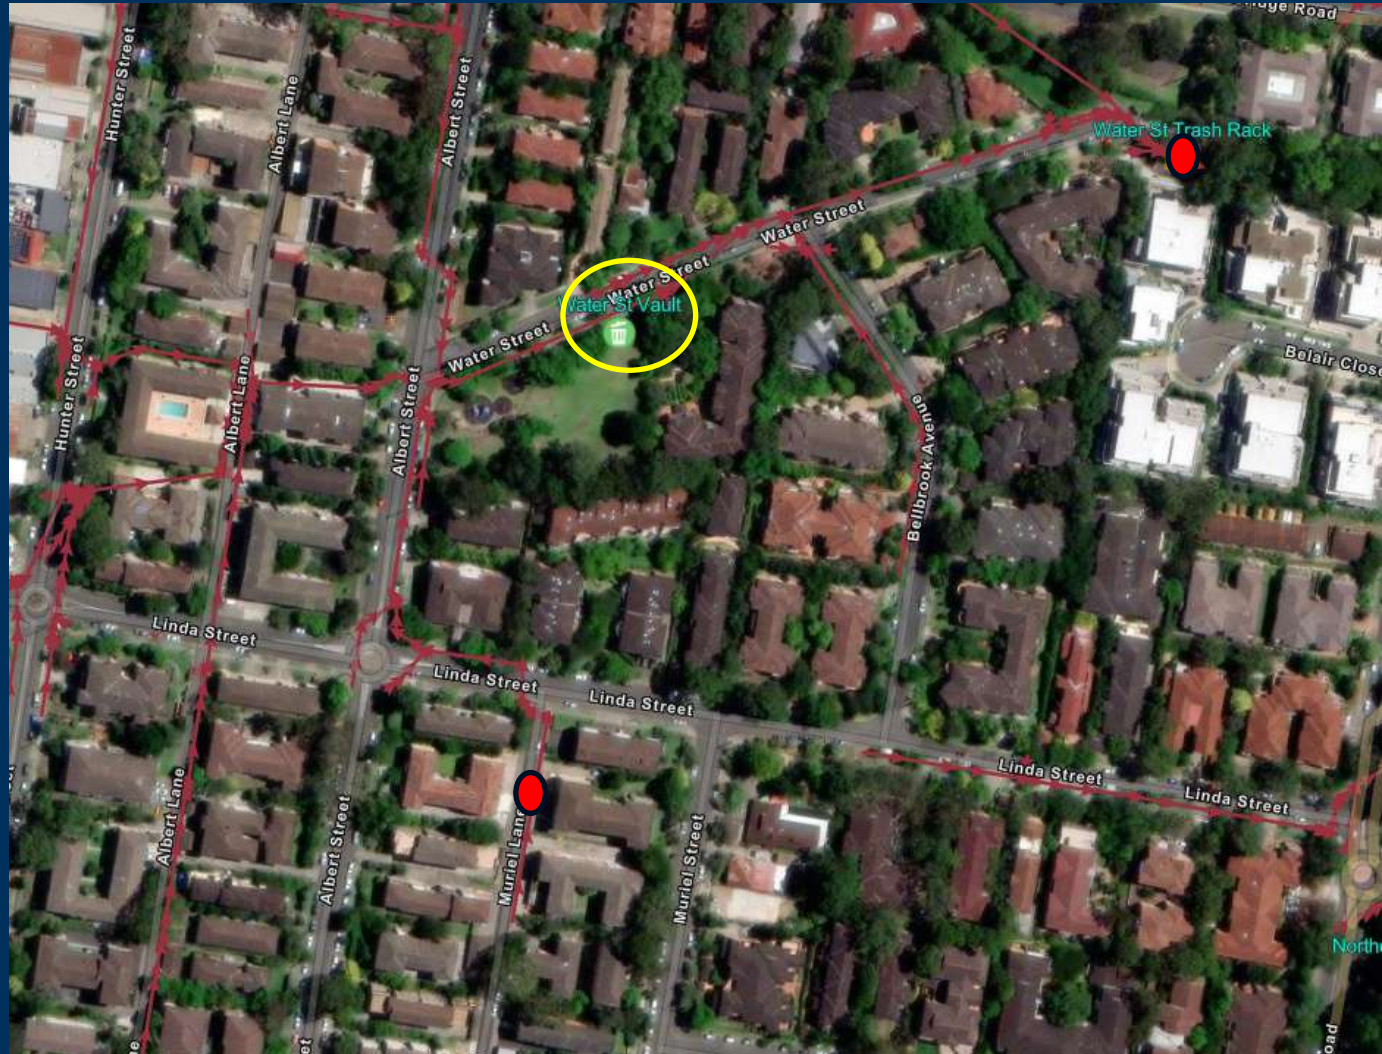

‘Creeklets’

How do I use the layers now?

- Orientation

How do I use the layers now?

- Orientation
