

The most advanced legal generative AI on the market  
now with Protégé™

Your personalised  
AI assistant  
within Lexis+ AI®  
leveraging both  
LexisNexis® content  
and your own  
documents.

Protégé works alongside you to streamline your tasks,  
anticipate your needs, and deliver uniquely tailored work.

### Personalise your Lexis+ AI experience

Protégé can provide an experience specifically tailored to you, matching your style and using your firm's own content or trusted LexisNexis legal content with links and citations back to the source information.

### Trusted generative AI— wherever you are

Protégé is uniquely tailored to your personal work practices and securely connected to the digital workflows you use – whether it be the LexisNexis ecosystem, a Document Management System (DMS)\* or applications like Microsoft 365.

\* DMS is an add-on when using Lexis® Create+ and Protégé

Lexis+ AI with Protégé powers conversational search, insightful summarisation, intelligent legal drafting, document analysis and linked legal citations.

### AI that Interacts

Stop searching and start interacting

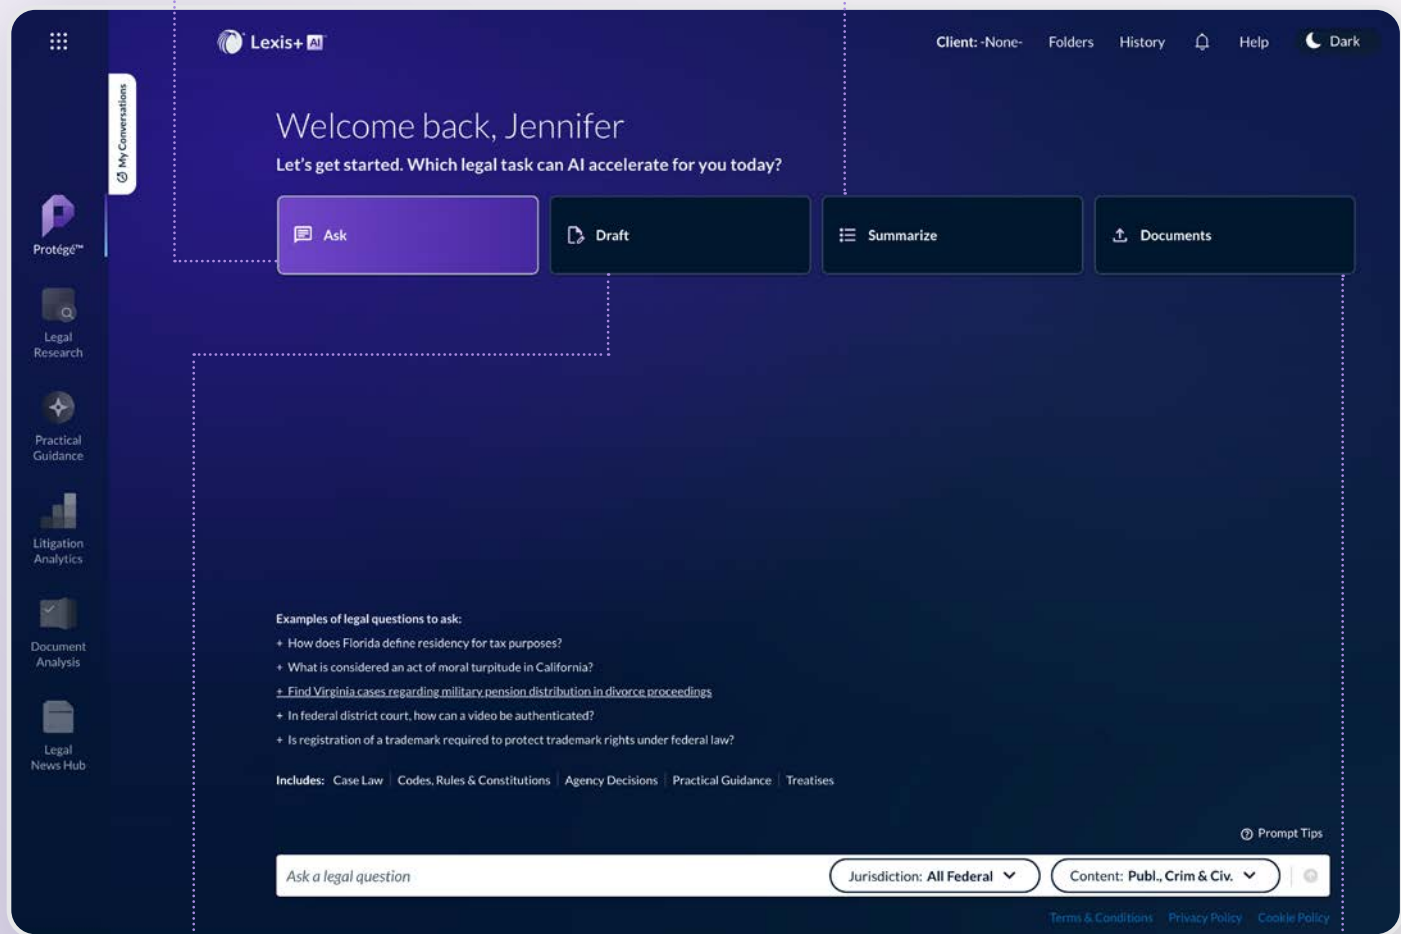

Lexis+ AI functions like your trusted colleague who intelligently and conversationally responds to your search requests using your firm's data and authoritative LexisNexis content.

### AI that Summarises

Accurate and complete summarisation

Get the legal summary you need in seconds. Surface comprehensive, meaningful insights using your internal knowledge base and industry-leading LexisNexis content.

### AI that Drafts

Draft documents in moments

Protégé provides advanced legal drafting capabilities, enabling the creation, customisation, and refinement of high-quality legal documents. Clauses can be extracted from your firm's documents to generate drafts grounded in your firm's content.

### AI that Analyses

Review your documents

Protégé automatically analyses your uploaded documents and provides suggested personalised next steps. It also performs time-saving tasks such as generating a visual chronology of events.

## Lexis+ AI combines the power of Protégé,

with advanced LexisNexis search technology, and world-class content to deliver powerful AI solutions that are easy to use with unmatched efficiency, speed, accuracy and security.

### Ease of Use

Lexis+ AI makes complex legal tasks easier and faster by allowing you to conversationally interact, discover new insights, and focus on more strategic thinking.

### Efficiency

Lexis+ AI improves your productivity, workflow and speed. Tasks that once took hours — like legal research, document comparison, and drafting are now completed in seconds.

### Confidence

Lexis+ AI delivers trusted, accurate results with citations linked to authoritative LexisNexis legal content, providing peace of mind and delivering better client outcomes.

Lexis+ AI

Protégé

### Power Your Productivity

Take your legal practice and productivity to the next level with the new Lexis+ AI assistant Protégé. Designed to meet you where you work, Protégé seamlessly integrates with LexisNexis platforms, Microsoft 365, and your firm's document management system.

### Grounded in Content

Protégé leverages advanced AI tools, developed and trained using the extensive collection of LexisNexis content, including analytical resources, industry-leading reference materials, and LexisNexis Practical Guidance, while also accessing your firm's proprietary documents and knowledge base.

### Work Confidently and Securely

Protégé adapts to your unique legal workflow by understanding your style, practice area and jurisdictions. It provides responses and insights based on your individual preferences and past interactions, delivering uniquely tailored work.

### The Confidence of Local Hosting

Experience the full potential of Lexis+ AI with the confidence that your sensitive information is stored and processed securely within Australia, using both Amazon Web Services (AWS) and Microsoft Azure.

### Citation Linked Responses

Lexis+ AI creates responses with linked citations providing trusted legal results backed by verifiable authority. It checks all citations against CaseBase® and our trusted content collection to ensure citation validation.

### State-of-The-Art Encryption and Privacy Technology

LexisNexis employs Privacy by Design principles with compliance safeguards to ensure state-of-the-art encryption and privacy technology to keep your data and information highly secure.

## Put hours back into your day with Lexis+ AI

“

Lexis+ AI makes legal research easier and more efficient with a chatbot interface that searches across a broad database of legal content.”

**Simon Newcomb**  
Partner IP & Technology

**CLAYTON UTZ**

“

One of our lawyers completed a research task in 4.5 hours using traditional methods. He was able to replicate and complete the same task using Lexis+ AI in 35 minutes.”

**Keren Smith**  
Chief Knowledge Officer

 **HOLDING REDLICH**

“

It's hard to imagine practicing at our current pace without Lexis+ AI. It's now critical for our success.”

**Ben Gouldson**  
Managing Director

**CLIFFORD GOULDSON**  
LAWYERS

“

Lexis+ AI saves us approximately three and a half hours a day and has boosted our productivity by 200%.”

**Simon Nakat**  
Principal and Founder

 **NAKAT LAW**
