

PRECEDENTS, LETTERS & COURT FORMS

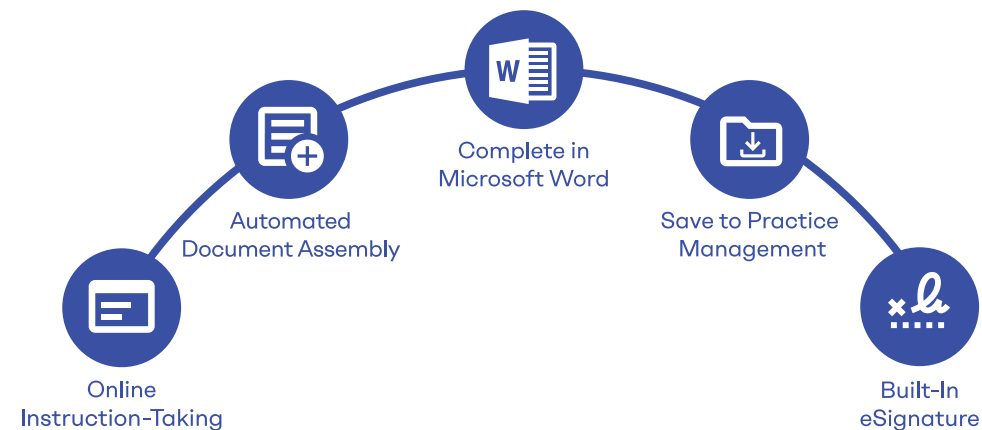

Document Automation for every Law Firm

Produce perfectly formatted client-facing,
courtroom-ready documents that are as
easy to draft as they are **accurate**.

smarterdrafter.com.au

A complete document workflow with the lawyer always in the loop

Stop daisy-chaining together systems to create a solution. We understand the flow of documents within a matter and have built a complete end-to-end system to automate document creation and workflow.

Scaleable to meet the needs of every firm

We understand that no two law firms are the same. That the needs of a firm just starting out are completely different to a firm with 500 fee earners. That's why Smarter Drafter is built to meet the needs of your firm as you grow.

From providing top-tier and specialised precedents to the ability to author your own bespoke content for a globally distributed team, Smarter Drafter has you covered.

New, Growing & Boutique Firms

Automation is a must-have in every legal firm's tech stack. Smarter Drafter delivers immediate results for a firm just starting, scaling or specialising.

Mid & Major Firms

Transform how knowledge is shared and utilised within your firm, seamlessly transferring invaluable insights and experience from partners to your team.

Create complex legal documents in a fraction of the time

Precedents that match your needs. Smarter Drafter offers an automation precedent solution for firms of any size or focus.

Essentials

Cover all major practice areas and unlock immediate results with Smarter Drafter 'Essentials' precedent bank.

Specialist

Access precedents dedicated to your specific practice area via Smarter Drafter content partners.

Build Your Own

Automate your existing precedents with Smarter Drafter's BYO capability..

Get started immediately with our Essentials precedent bank

We've automated, and continually update, a large range of top-tier precedents, legal documents, court forms and instruction-taking forms. Your go-to resource for top-tier, constantly updated and automated content for your firm.

Documents to be proud of

Produce beautifully formatted client-facing, courtroom ready documents that are as easy to read as they are compliant.

Your Brand

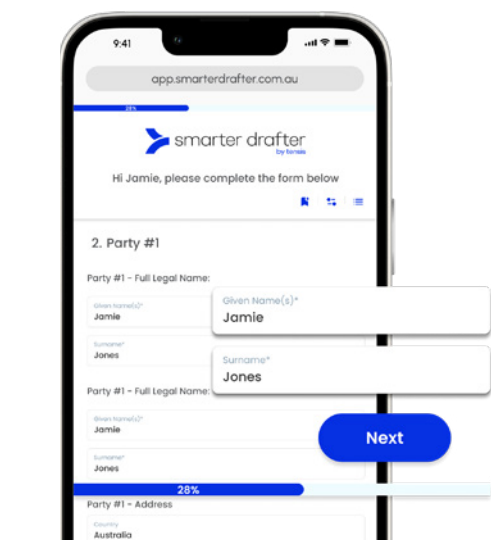

Maintain brand consistency by adding your firm's logos, colours and fonts to both instruction-taking forms and documents.

Courtroom Ready

As our documents are continually updated, they are always courtroom ready

From Instruction to eSignature

Automation is now an essential component of the Legal Tech stack.

Instruction

Reshape your client engagement and move instruction taking online.

Invite your clients

Have your clients complete an online Q+A on any device.

Instantly Notified

As soon as your client has completed the form you will be notified.

Automatically Populated Forms

All of the instructions your client has provided are automatically added to document in Smarter Drafter.

Save

Combine the best-in-class document automation and document management

PDF, MS Word or Both

All client documents can be reproduced in seconds from the Submissions table. Download a copy in PDF or MS Word or both via a convenient ZIP file.

Send Directly To Your DMS

Maintain client records in a single location. Through seamless integration with your document management system, completed documents can be saved directly to matters.

Assembly

Create complex legal documents in a fraction of the time

Built-in Guidance

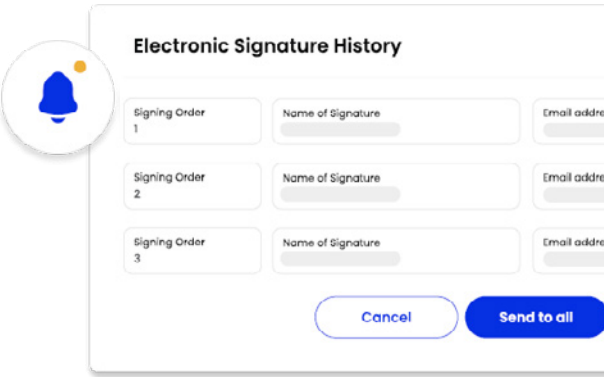

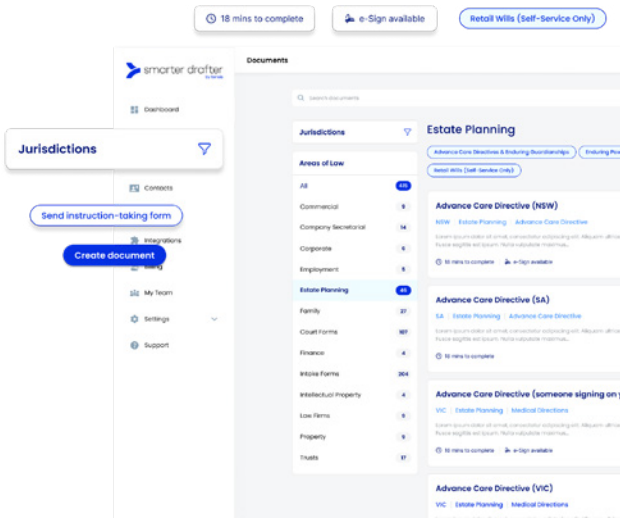

Q+A form dynamically adapts to your answers and prompts you for everything to complete the document.

Track your progress

See exactly where you up to. Jump back, move forwards or save and resume at a later stage.

The right data, every time

In-built data validation ensures your dates and calculations are always right.

eSignature

Remove the bottleneck of 'wet' signatures

A complete solution

Keep all of the contract processing in a single platform.

One-Click send

Remove the need for printing or exporting to third party applications.

Secure Environment

Documents are signed in a secure and encrypted environment that only you and your clients can access.

Smarter Drafter Clause Bank

Curate and maintain a firm-wide Clause Bank with Smarter Drafter without leaving Microsoft Word. Complete the final version in an environment you know.

Edit in MS Word

Send your first draft straight to MS Word and start editing. The Smarter Drafter Add-In for MS Word, allows you to add any final touches to client documents in an environment you know and trust.

Firm-Wide Clause Bank

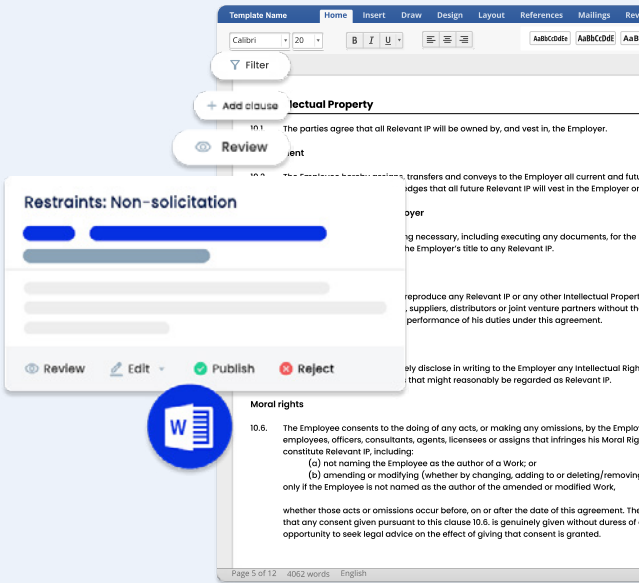

From a single sentence to a page of text, create and maintain a firm-wide Clause Bank without ever leaving MS Word. Search, filter and preview to find the clause you need, then one-click insert directly into your document.

Send and Save

When you have completed your edits, simply click to save the final version in Smarter Drafter, file a copy in your practice or document management system and send to your client for eSigning.

Smarter Drafter PRO

The Smarter Drafter PRO Clause Bank also includes the ability for team members to submit clauses for centralised approval and publication.

100,000+ documents and counting

More than 2,000 lawyers nationally use Smarter Drafter to create top-tier quality documents for their clients.

"

Smarter Drafter is cost-effective, easy to use and a very high-end product that I would recommend to any law firm. Thank you, Smarter Drafter, you have achieved the creation of an excellent product that certainly works for us.

Underpinned by integrations

We are waging war on rekeying. Integrate with your practice management system (PMS) for matter details, Google maps for accurate addresses and the Australian Business Register for the correct company details.

At the end of the process save your completed documents directly to your document management system (DMS).
