Partner with franc.2025 to be held at Mercure Hotel Hunter Valley Gardens 15 - 16 October 2025

Following on from the success of the past three **franc.sydney** conferences held in March 2022, March 2023 and April 2024, we would like to invite your organisation to participate as a Sponsor or Exhibitor at **franc.2025** to be held at the Mercure Hunter Valley Gardens on Wednesday 15 and Thursday 16 October 2025.

franc.2025 is well on its way in building a community who are challenging the norms of urban water management and work together to change the way the stormwater industry operates to become more future-focused, resilient, adaptive and connected.

franc.2025 builds upon the success of previous **franc** conferences and will continue to provide a dynamic platform for the industry to come together, collaborate, share knowledge, and learn from each other. It will also feature informative site visits, interactive hands-on workshops, and an expo showcasing state-of-the-art technologies in stormwater management in a knowledge-sharing format.

Sponsor or Exhibit at franc.2025

With the Conference set to attract more than 160 NSW delegates, this is an opportunity for your organisation to increase brand awareness, generate sales leads, develop new and existing client relationships, as well as showcase your services directly to your target market.

The Delegates

Attendees at **franc.2025** are a community of individuals and organisations who are, in some way, connected to or effected by urban stormwater and are passionate about changing the way the industry operates to become more future-focused, resilient, adaptive and connected. Our stakeholders include stormwater professionals, scientists, academics, researchers and advocates that recognise the need for a change that will put the health of our waterways, emissions and sustainable development above short-term political and financial interests. Most importantly we bring these people together to help us all speak with one voice.

Our Attendees include, but are not limited to:

- Academics specialising in Hydrology
- Catchment Management Officers
- Civil and Consulting Engineers
- Drainage Engineers
- Environmental and Marine Scientists
- Environmental Engineers
- Infrastructure and Asset Officers
- Landscape Architects
- Local Government Engineers
- Planning and Environment Officers
- Policy Managers and Officers
- Research Scientists
- Services, City Strategy and Development Officers
- Sustainability Managers

Networking Opportunities

Participation in **franc.2025** will provide a range of opportunities for Sponsors and Exhibitors to interact with delegates throughout the event. The social program for this year will include **franc.fest** held on the evening of Wednesday 15 October 2025.

The Proposition

The Sponsorship and Trade Exhibition packages for **franc.2025** have been designed to provide your business with maximum exposure to conference delegates with the option to secure your sponsorship with the items most beneficial to allow you to promote your brand.

All Sponsors and Exhibitors will:

- Have unrivalled opportunity to meet commercial prospects face-to-face. Exhibiting will allow you to reach out to potential customers so you can explain why your company is the right choice for them. It's all about education and helping them understand what you are about.
- In a world of strong competitors that are growing at a rapid pace, your company needs to be looking for ways to be visible. Your virtual presence may be strong but to grow there also needs to be a level of real visibility.
- Have the ability to network with approximately 160+ urban water management professionals. We believe that our attendance this year will exceed the past three years.
- Add value to your marketing strategy and accelerate the buying process - this is a great opportunity to tell the industry what your organisation has been working on over a coffee, meal or just a chat at the booth.
