

# Unlock True Practice Productivity with LEAP AI

---

# Why LEAP?

We help law firms be more productive. LEAP is focused on the unique needs of law firms.

LEAP seamlessly combines matter management, legal accounting, document automation and practice management tools alongside legal publishing platforms to deliver an unrivalled productivity solution to legal practices across the globe.

## **One system**

*Fully integrated  
and easy to use*

## **Mobility**

*Work anywhere,  
any time*

## **No servers**

*Lower your costs by  
simplifying your IT*

## **Automated forms**

*Extensive range of  
forms available*

## **Everyone in your firm can work on matters simultaneously**

LEAP's single, integrated platform deploys real-time changes across all areas of your business. You can do more work with the same number of people, and there is no need to hire additional administration staff as your workload increases.

## **High-level security provided by Amazon Web Services in Australia**

Your data is stored on servers that are built to meet the requirements of the most security-sensitive companies. No single law firm, no matter the size, can match the data security that LEAP provides.

## **Ongoing Support with LEAP**

Make the most of LEAP with access to our dedicated Client Support Team, available through LiveChat or email, and visits from your Client Relationship Manager, available both on-site or online.

Our range of support options make LEAP a remarkably practical and innovative solution for anyone working in a law firm.

**61,000+**

LEAP users  
globally

**5,140**

Electronic conversions  
of legacy data

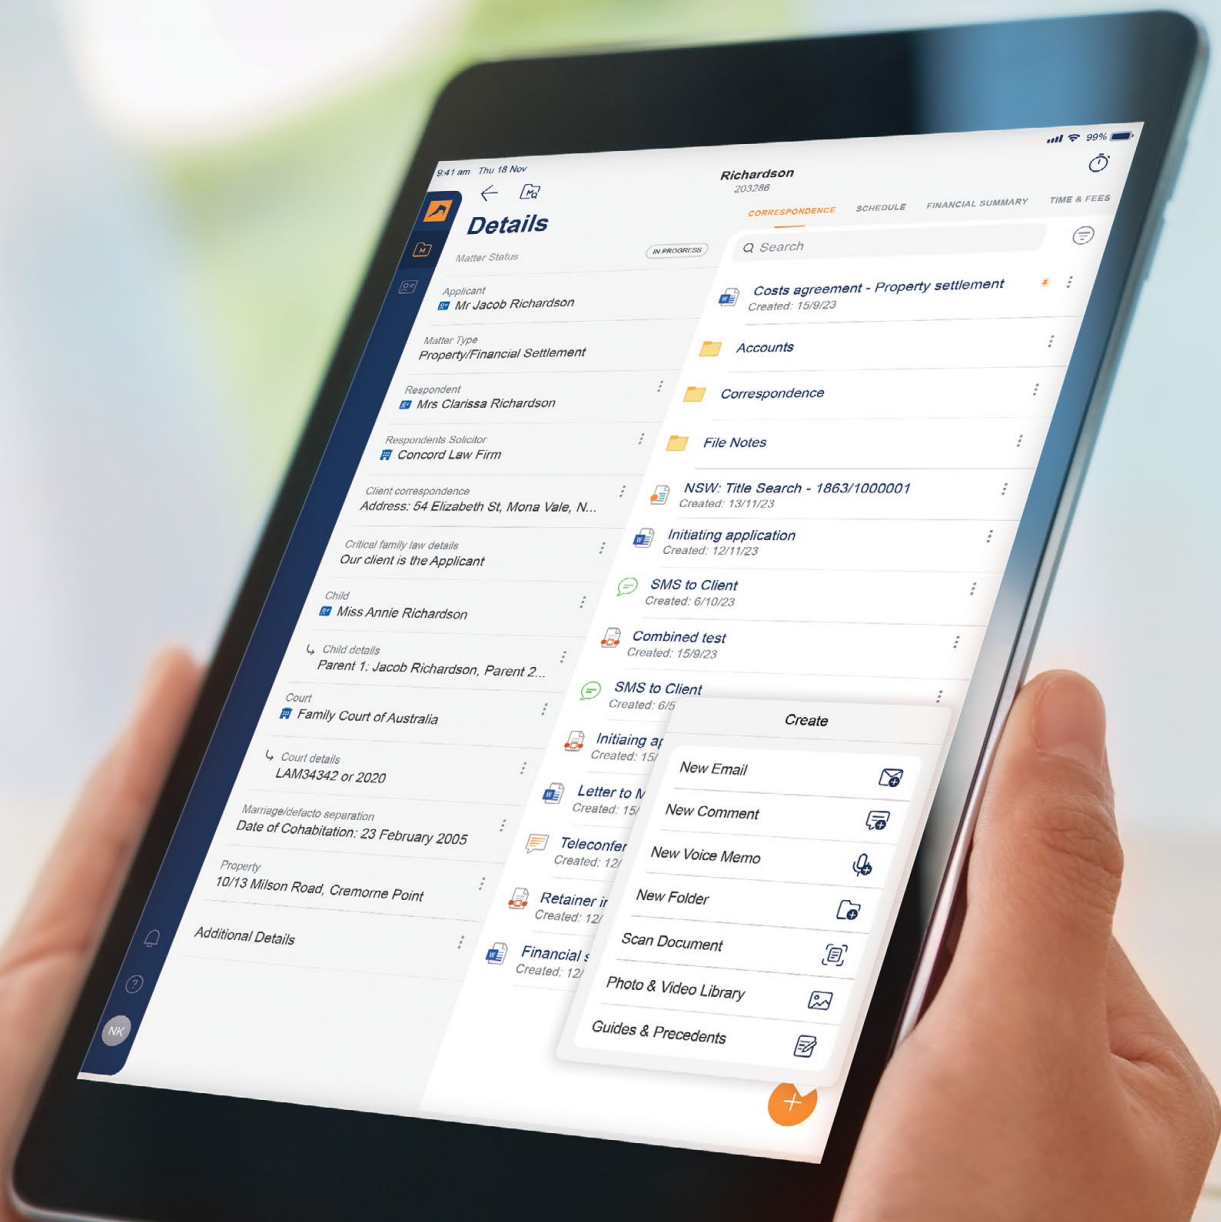

**99%**

Average uptime  
globally

For more information, visit our [Why LEAP page](#)

We concentrate on helping firms in their most commonly practiced areas of law, including:

- Family Law
- Estates
- Criminal Law
- Conveyancing and Property
- General Litigation
- Commercial Law
- Wills and Power of Attorney
- Personal Injury
- Debt Collection

*I like the LEAP Mobile App, the iOS accessibility, and particularly the iPad app. It doesn't matter if our team is in the office, at home or on the road, they have easy access to our key systems.*

**Stipe Vuleta | Managing Director, Chamberlains**

# One Electronic Matter for Every File

## Matter Management

Choose from over 1,000 pre-configured Matter Types, complete with matter-specific input fields.

## E-mail Management

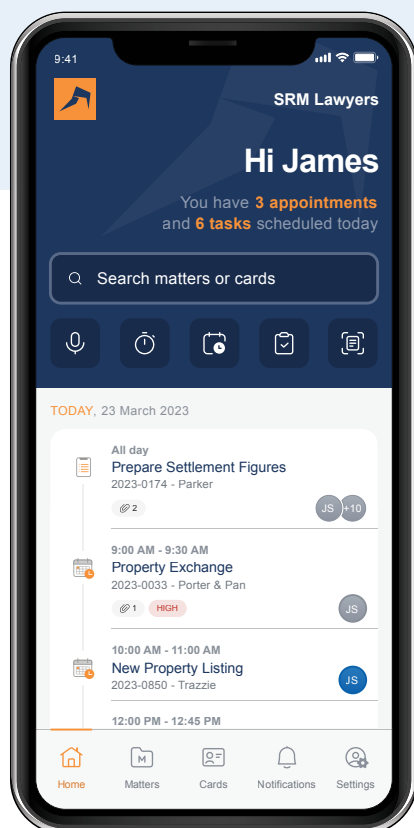

Create professional e-mails that are automatically merged with your clients' details.

## Customised Documents

Create your own customised documents and precedents using LEAP's automation tools and Document Customisation Engine.

## Exclusive, purpose-built AI

Ask, Draft, Analyse and Record with our fully integrated suite of premium legal AI tools, carefully designed to meet the unique needs of law firms.

## Automated Forms

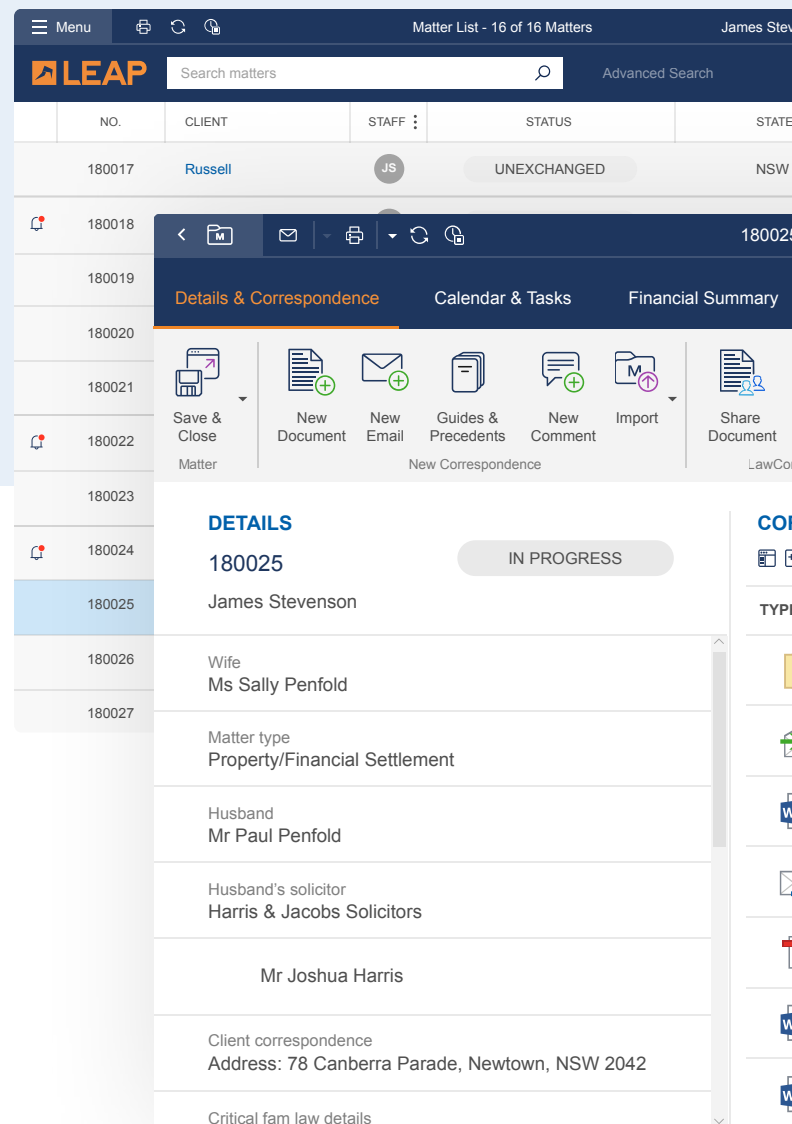

Create consistently error-free documents with an extensive range of automated and up-to-date legal forms.

## Accounting

Fully integrated office and Law Society certified trust accounting.

## Online Document Sharing

Securely share and collaborate on documents with LEAP's seamless LawConnect integration.

## Time Recording & AutoTime (AI)

Accurately record time and create fixed-fee entries from any device. Use Autotime (AI) to automatically log your billable hours, eliminating the need to manually make time entries.

## Integrated Searching

Online searching and cost recoveries.

## Reporting

Measure performance with a wide range of reports for clients, trust, office and management.

## Invoicing & Receipts

Streamline your cash flow processes and reduce manual data entry.

## Client Support

Access to local support with the LEAP Client Support Team, LiveChat and LEAP Help Centre.

## Mobile

Create matters, record time and share documents from your iOS or Android device anywhere, any time with the LEAP Mobile App.

The screenshot displays the LEAP software interface, which is divided into several sections:

- Top Navigation Bar:** Includes a search bar, a "New Matter" button, and a "Current Matters" dropdown menu.
- Matter Type Selection:** A dropdown menu showing "MATTER TYPE" with "Sale to Penfold" selected.
- Module Tabs:** A row of tabs for "Time & Fees", "Office Accounting", "Trust Funds", and "Registers".
- Mobile App Integration:** A section showing icons for "eSignature", "Message", "Call", "Send Document", "Send Matter", "Callback Request", and "Search Service".
- Correspondence Section:** A list of correspondence items with details like "Sally Penfold and Paul Penfold Property..", "Financial Statement", "Your Settlement/Property Affairs", "Trust Statement", "Costs agreement - Property Settlement", and "Letter to Mr Penfold".
- Activity Log Table:** A detailed table showing activities for various matters. The table has columns for "Elapsed", "Matter No.", "Client", "Matter Description", "Activity Code", "Billing Description", "Units", "Hrs/Qty", "Rate/each", and "Value".
- Matter Summary Table:** A table showing summary information for a specific matter, including "Matter No.", "Client", "Responsible", "WIP (In billable)", "Debtor Balance", and "Trust Balance".
- Performance Chart:** A bar chart showing performance metrics for "Today", "WTD", and "MTD". The chart includes a legend for "Exceeded", "Under", and "Budget".

# Exclusive AI. Purpose-Built for Law Firms.

Our AI solutions are built with lawyers in mind, knowing which parts of legal work can be made more efficient such as research, matter analysis and drafting to allow you more time to focus on high-value work that requires your expertise and judgment. All AI is exclusive to LEAP and not available in any other software. Ask, Draft, Analyse and Record with LEAP AI.

## Ask with AI

Ask any legal question – for the purpose of research, to review case law and legislation or to summarise information. Much like asking a more experienced colleague, but complete with linked legal citations, **LawY** is your go-to trusted AI legal assistant, with the added benefit of being able to submit any AI answer for verification by a real, qualified lawyer.

## Draft with AI

Input the document you'd like to draft and **Generator** produces relevant results all in one search, all in one screen. Want to replicate a previous document or clause? Looking for a specific LEAP form? Uploaded a precedent you can't find? Or want AI to draft one for you? LEAP Generator can responsibly supercharge drafting with AI, without sacrificing quality.

## Analyse with AI

Search, understand and analyse your matter information faster. Chat with **Matter AI** to instantly search thousands of documents, spreadsheets, emails, attachments, images, scanned PDFs and even handwritten notes to receive a detailed response complete with references in seconds. Create chronologies, compare multiple documents for inconsistencies, summarise documents and more.

## Record with AI

**AutoTime** records what you forget to record, so you can concentrate on doing your legal work.

Our intelligent time recording automatically logs your billable hours, eliminating the need to manually make time entries **and avoiding leakage of billable time**. This simplifies billing and provides insights into your overall productivity, so you can focus on high-value work.

*AI like LawY is saving us 10-15+ hours per week. LawY saves us time because it directs us immediately to the right place. That could be relevant cases, relevant legislation, or relevant issues.*

**Mark Smith | Principal, Brander Smith McKnight**
