

PROFESSIONAL DEVELOPMENT FOR TEACHERS

The Rhythm Village offers a range of Professional Development Workshops with a unique and fresh approach to using music within the classroom. Real, tangible approaches to using music as a learning modality are offered, with ideas and tools that can be used within the classroom, so that teachers can incorporate music to teach across Key Learning Areas.

All workshops are interactive and are specifically designed for fun and engagement, exposing teachers to the power of rhythm and music for your students.

Teachers will leave these workshops energised and with lots of great ideas for furthering their students' priorities and learning outcomes. No music ability is required.

These Professional Development courses can contribute towards your teacher accreditation. All workshops are conducted at your school.

Professional Development workshop topics may include:

- Using music for Engagement, Accessibility & Creativity
- across all KLAs
- Using music to teach Mathematics
- Using music to teach Geography
- Using music to teach PDHPE
- Using music for Wellbeing
- How to use Garage Band effectively
- How to build effective teams – staff teambuilding
- How to be an effective leader – leadership development
