De Mazenod Family Education Network - GoGreen Student Voice Sustainability Drive

Week 4 of our Sustainability Summit
Appreciating Responsible Corporate Action and Support
(Monday September 8 to Friday September 12)

A list of social enterprises and corporations acting responsibly to protect our ecology and promote sustainable action has been established to show students that changes are taking place. Actions to reduce waste, reduce energy consumption and build ecological awareness provides hope and positive energy. The focus of Week 4 is to learn more about these organizations and to share some examples of those who are acting responsibly.

Action

The list of social enterprises and corporations will be sent to Sustainability Coordinators on Tuesday September 2 in preparation for Week 4 of the drive. During Week 4 students may want to add to the list of businesses and organizations that are acting responsibly and leading by their actions.

The list provides:

1. A summary of their actions,
2. a link to their website,
3. a link to career opportunities,
4. an Education Contact and
5. where relevant Excursion / Incursion, Sponsorship information.

Sponsorship could help with programs and initiatives but also provide sustainability team members the opportunity to attend conferences and events to learn more about ecological awareness and sustainable action.

If you have organizations that should be added to our list, please send the information to tcoghlan@omi.com.au

Next week - Week 5 - Good People Doing Good Things
