Presentation title	Turning the waka around: The story of Auckland Transport setting off for Vision Zero		
General comment/s			
Presentation overview (250 words maximum) Earlier this year, Auckland Transport's Chief Executive stood in front of all staff and said road safety is now the number one priority for the organisation. What led to that point, and, how will we begin to start transforming the culture and practice of New Zealand's largest regional transport authority? This is the story of Auckland Transport setting off for Vision Zero and our journey so far. The session will use engaging storytelling methods to share how Auckland Transport came to commit to Vision Zero; what pieces of work were undertaken to embed a Safe System mindset, along with successes and lessons learnt. Bring your own ideas and comments for an interactive conversation on what each of us can take away to further New Zealand's Vision Zero story.
