

'The street of to-day can sustain its
human drama.
It can glitter under the brilliance of a
new form of light.
It can smile through its patchwork of
advertisements.
It is the **well-trodden path of the eternal
pedestrian, a relic of the centuries,** a
dislocated organ that can no longer
function.

The street wears us out.
And when all is said and done we have
to admit it disgusts us.
Then why does it still exist?'

Le Corbusier, Plan Voisin, Paris 1925

LOWER 9TH
DINER

2. Remember People

2. Central Area

move promotion opportunities for shops

BIKE PATH TO FREE UP SPACE ON THE FOOTPATH

Overpass structure is imposing and visually unappealing

Loading zones often mis-used

Limited space for pedestrians

Shared lane

- **Lower Level:**
- Dark and uninviting spaces
- Uneven pedestrian terrain
- Local parking needs
- Lack of street amenity

3. Northern Area

- **Cook Street Junction:** pedestrian safety & cycleways connections
- Uneven pedestrian terrain
- Lack of amenity

Confusing signage at junction

No right turn for cyclists

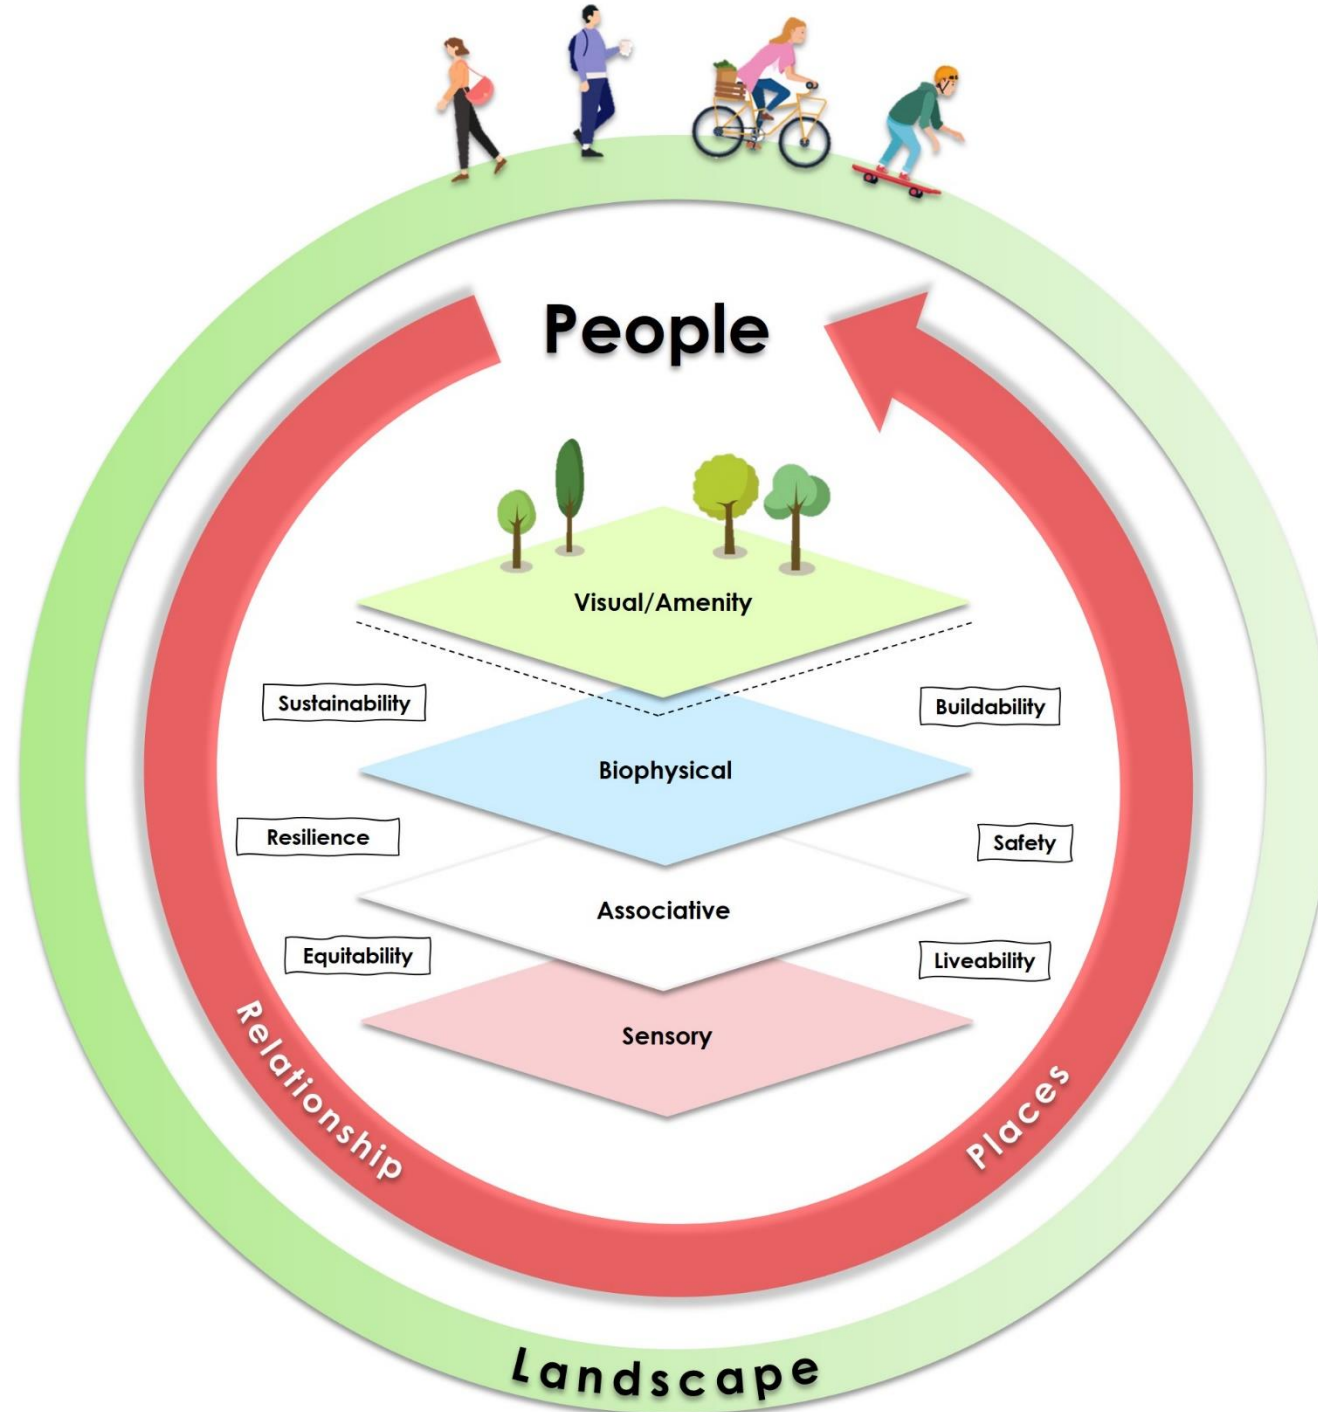

NAME

3. You want people who think about place and people on your street project

Reading and
writing the
landscape

I fear for this...
