

The Changing Face of Patient Engagement

Digitising patient journeys for complex service providers:
Hospitals, clinics and healthcare services

We make complex simple.

5 Five Faces

Patient Portals & Digital Front Door

Providing transparency and ease of access for patients, employees, and loved ones through digital self-service.

5 Five Faces

Patient Flow & Queue Management

Improving patient flow and experience while providing clinics with real-time visibility in one seamless solution.

5 Five Faces

Smart Forms

Digitising patient data collection to eliminate manual data entry, automate workflows, and take a 'tell us once' approach to data.

5 Five Faces

Visitor Management

Streamlining the visitor experience for screening and operational visibility.

5 Five Faces

Virtual Appointments

Extending health service delivery to virtual care with an easy wrap-around interface to leverage existing technology.

5 Five Faces

Digital Signage & Wayfinding

Digitising communication and wayfinding in healthcare environments to make your facility accessible to all.
