Workforce Expectations: Disconnect Between Settings

Facilitator: Susan H Fenton

Associate Professor, Assoc. Dean for Academic and
Curricular Affairs

UTHealth Houston

Acknowledgement of Country

We acknowledge the Gadigal people of the Eora Nation on whose unceded lands we meet for this panel today.

We respectfully acknowledges their Ancestors and Elders, past and present. We also acknowledge any First Nations Peoples here today.

We also acknowledge the Traditional Custodians and their Ancestors of the lands and waters across Australia where we conduct our business.

Learning Objectives

- Describe the different perspectives of educators, accreditors, and employers in regards to workforce development;
- Delineate the desired common skills and competencies of the biomedical and health informatics workforce; and
- Outline ways in which educators, accreditors, and employers can work together to ensure a highly qualified biomedical and health informatics workforce.
