## Healthcare professionals' perceptions of AI

---

Lucy Shinnars

Nursinf Lecturer

*Southern Cross University*

## Industrial revolutions in healthcare

### 1<sup>st</sup> Industrial revolution

Mechanisation, water, steam power  
Human anatomy discovery,  
Sanitation, Medical training

### 2<sup>nd</sup> Industrial revolution

Mass production, electricity  
Microscope, Vaccines, X-Ray, Hospitals, University education

### 3<sup>rd</sup> Industrial revolution

Computer and automation  
Defibrillation, EMR,  
Internet, Evidence-based practice,  
'Digital health'

### 4<sup>th</sup> Industrial revolution

Cyber Physical systems  
Mobile health, biosensors,  
analytics, AI, 'digital medicine'

## The socio-technical systems theory

Travistock Institute

## Perception

- The process of gathering information to create a narrative
- Can facilitate communication, identify risk
- Powerful indicator of organisational readiness
- Promotes social construction of technology

## What is known about workforce perception?

- No studies that measured perception
- No validated tools to measure perception

## Piloting the SHAIP tool

- **n= 272:** medicine, nursing/mid, allied hlth, non-clinical, other
- Findings supported the structure and reliability of a 10-item tool.
- Further testing needed

*Original research*

### Exploring healthcare professionals' perceptions of artificial intelligence: Piloting the Shinnars Artificial Intelligence Perception tool

Lucy Shinnars<sup>1</sup> , Sandra Grace<sup>1</sup>, Stuart Smith<sup>1</sup>, Alexandre Stephens<sup>2</sup> and Christina Aggar<sup>1</sup>

## SHAIP tool- what it measures

---

AI's impact to  
professional role

Preparedness for AI

|     |  |
|-----|--|
| 1.  | I believe that the use of AI in my specialty could improve the delivery of patient care                      |
| 2.  | I believe that the use of AI in my specialty could improve clinical decision making                          |
| 3.  | I believe that AI can improve population health outcomes   |
| 4.  | I believe that AI will change my role as a healthcare professional in the future                             |
| 5.  | I believe that the introduction of AI will reduce financial cost associated with my role                     |
| 6.  | I believe that overall healthcare professionals are prepared for the introduction of AI technology           |
| 7.  | I believe that one day AI may take over part of my role as a healthcare professional                         |
| 8.  | I believe that I have been adequately trained to use AI that is specific to my role.                         |
| 9.  | I believe there is an ethical framework in place for the use of AI technology in my workplace                |
| 10. | I believe that should AI technology make an error; full responsibility lies with the healthcare professional |

## Perceptions around the world

- UK
- USA
- Turkea
- UAE
- Poland
- Saudi Arabia
- Korea
- Japan
- India
- Spain
- Slovenia
- Croatia
- Italy
- Iran
- Pakistan

## Perceptions of AI impact to professional role

## Perceptions of preparedness for AI

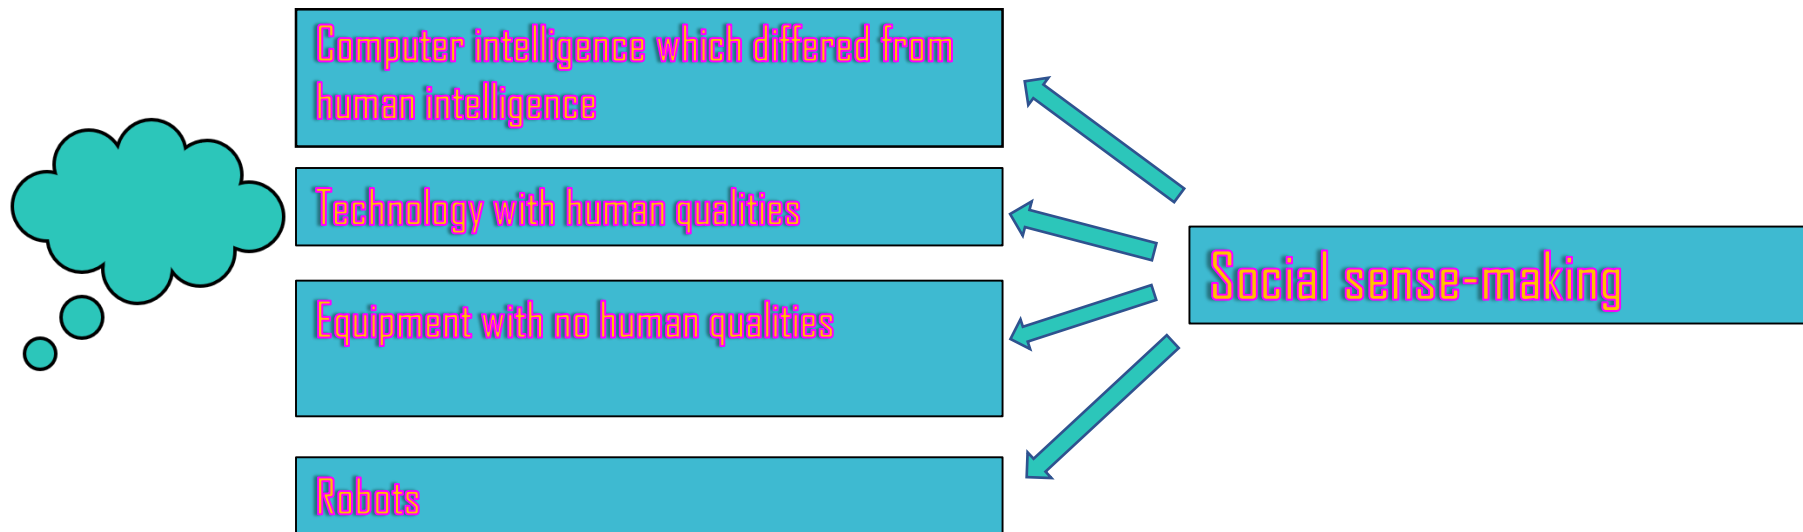

Overall HCP perceive that they are not prepared for AI

Education needs to be tailored to meet the needs of older HCP

## HCP understanding of AI

## Challenges to AI implementation

1. Workforce knowledge
2. Cost to implement
3. Organisational support
4. Interoperability
5. Infrastructure
6. I don't know

## HCP education needs

1. Application of AI
2. General education
3. Ethics of AI
4. AI techniques
5. AI for business

## Recommendations for the future

---

1. Education about AI
2. Leadership in the technology space
3. Social dimensions of implementation
4. AI techniques
5. AI for business
