Bionic Powers

- From the start of SAS, children are encouraged to express their own goals and values
 - Bionic Powers!
 - Referred to across the program
- Intake assessment explores parent, teacher and child goals
- SAS is flexibly applied to value each child's diverse profile and social-emotional goals

1st Anniversary

Provider Services:

"I'm surprised how much I prefer the digital format to the previous format. I did not think that I would like it as much."

177 SAS Providers (both **in-person** and **telehealth** service delivery)

62% greater reach of services due to new flexibility

90% commenced second year once reaching 12 month milestone.

66.1% previously used physical program resources
33.9% new to digital

84.8% private or non-government
15.8% government organisations

2 Years Post Launch

Training/Facilitators:

"I can flick to the bits I need help with without going back over everything."

 **1021** professionals
(**739** SAS Facilitators, **282** SAS Assistants)

 Psychologists, Behaviour Analysts, Educators, Occupational Therapists, Speech Pathologists, and Social Workers

- **4181** Mentors (Parents & Teachers)
- **192** SAS Providers (450 subscriptions sold)
- **75%** Renewal rate

Groups:

"I found it really easy and useful to check the cadet and parent progress."

 **4915** Children

 **1497** Groups commenced (899 completed)

 **11118** Cadet Club Meetings

 **4430** Parent Group Meetings

 **6** Global regions (AUS, USA, CAN, UK, NZ, SIN)

Favourite SAS skills:

Emotion Recognition | ♥ **Emotion Regulation** |
Social Skills | ♥ **Social Problem Solving**

Preparing Children for Life's Social-Emotional Challenges

Supporting a whole community to prepare children for life's social-emotional challenges

THANK YOU!
