

WHAT DOES A WELCH ALLYN CONNECTIVITY SOLUTION LOOK LIKE?

1

Scan
clinician ID

2

Scan
Patient ID

3

Take vitals,
observe EWS*,
save and send
reading

4

Vitals automatically
become available in
the EMR

- No paper -
- No Typing of vitals into EMR -
- Save time and reduces transcription errors -

“The paperless data transfer improves workflow, speeds the process and eliminates transcription errors and nurses writing obs on their hands”.

Dr Richard Waller, Emergency Department Director,
Royal Melbourne Hospital

“Welch Allyn Vital signs devices are now an integral part of our HER workflow we now have real time data in our electronic record, reducing the transcription time and errors associated with a paper world”.

Michael Draheim, Chief Information Officer, Metro South Health,
Adjunct Professor, UQ Business School, University of Queensland

CLOSE PARTNERSHIP WITH OVER 90 EMR PROVIDERS INCLUDING CERNER AND EPIC.
