

THE EASY WAY TO
START BENEFITTING
FROM A DRUG
LIBRARY

DOSE IQ SERVICE AGREEMENT

Dose IQ, Baxter's industry-leading drug library and web-based safety software, helps to minimise the risk of programming errors and the related risk of patient harm.

Using a drug library upon pump implementation helps build standardisation for further use and expansion.

Baxter's proven implementation process helps provide a framework to develop, customise and evolve a drug library to meet a facility's practices and goals for today and tomorrow.

Dose IQ service agreement, Baxter partners with you to develop a small customer centric drug library:

- ✓ A **Baxter consultant partners with your team** to provide support for building the drug library
- ✓ A **phased approach** can be taken to start with a manageable scope and expand later
- ✓ **You retain ownership** of the drug library
- ✓ Optional **annual review** allows for drug library updates
- ✓ **No requirement** for IT support

PHASED AGILE APPROACH FOR BUILDING A DRUG LIBRARY

DRUG NAME CATEGORIES

- Display drug names
- Standardise DERS workflows

EXPAND LIMITS, CARE AREAS, DRUGS

- Enable additional safety limits
- Platform to build upon

FULL DRUG LIBRARY

- Robust safety
- Efficient programming

INTEGRATION READINESS

- Robust drug libraries are the foundation of future integration opportunities
