

Change the ending

Talk to us about better palliative care

HammondCare

We're working towards a future where every person receives the care they need, when they need it most. But we can't do it alone.

We need your help

Talk to us about transforming the experience for people with palliative and end-of-life needs together, working across systems for better care. Share your ideas or ask us about:

- **Collaborative, connected teams** - working with PHNs, LHDs and volunteers for better connected services
- **A Palliative Approach to Care** - foundational and advanced palliative care training
- **Last Days program** - increasing death literacy for carers and families
- **The Advance Project** - free, practical resources and training for aged and primary care professionals
- **The Embrace Program** - supporting people living with serious illness and their carers

Let's work together for a stronger, better connected health system.
