Scan and Pastes (Encodes) lines of Text, Numbers, Barcodes
Scans and Translates into over 40 languages.
Reads aloud scanned text

Transparent, unobstructed tip facilitates easy scanning without disrupting the reading process.

JUST SLIDE IT ACROSS ANY PRINTED TEXT

The printed text is scanned and captured as a raw image – and processed to a high quality image, ready for recognition by the OCR software. The digitally formatted text is then instantly transferred into any application on your computer or our intuitive mobile apps ready for easy editing and sharing. These stages occur within a fraction of a second.

Scanmarker scans directly into the computer application or web browser of your choice, facilitating effortless retyping and sharing – whether you are using Word documents, Excel, Gmail, Facebook or any other application, the text appears directly where you would like it.

TRANSLATES INTO OVER 50 LANGUAGES

Simply select the language you would like to translate to, slide the pen over your paper document and the translation will appear right where your cursor is blinking in a matter of seconds.

Supported Languages: Albanian, Azerbaijani, Brazilian, Bulgarian, Chinese (S Vert), Chinese (Simple), Chinese (T Vert), Chinese (Traditional), Corsican, Croatian, Czech Danish, Dutch, English, Esperanto, Estonian, Fijian, Finnish, French, Galician, German, Greek, Hebrew, Hungarian, Icelandic, Irish, Italian, Japanese, Japanese Vert, Korean, Korean Vert, Latin, Latvian, Lithuanian, Moldovan, Norwegian, Polish, Portuguese, Romanian, Russian, Scottish Gaelic, Serbian, Slovak, Slovene, Spanish, Swedish, Swiss German, Tagalog, Turkish, Ukranian, Xhosa, Zulu.

READ ALOUD

The integrated text-to-speech function can read the text back to you whilst scanning. A great memorizing tool and gives a clearer understanding and comprehension of the scanned material. This feature has opened up an opportunity to enhance the learning process and promote independence for those with dyslexia and other learning disabilities.

Scanmarker is an effective tool used in the Special Education sector to help every student achieve academic success.
