Incorporating cutting-edge technology and user-centric design, Scanmarker Pro is not just a reading device; it's your all-in-one solution for efficient, multilingual reading, note-taking, and more.

Elevate your reading experience with Scanmarker Pro today.

TEXT TO SPEECH

The Scanmarker Pro is a powerful tool designed to enhance your reading experience by seamlessly blending technology with literacy. This innovative device serves as your on-the-go reading companion, offering a range of features to support independent reading and comprehension.

Listen to the text live from the scanner or use with bluetooth headphones while scanning

READ & TRANSLATE

Scan & translate over 70 languages online or offline with text reading out loud

Scan, Translate, and Listen

Unlocking the world of multilingual reading is effortlessly streamlined with Pro. Seamlessly scan text, translate it, and choose to either listen to the original scan or the translated version, making the process of reading in a different language as simple as it is versatile. For ESL students or those learning a language this a great feature.

DICTIONARY MODE
Improve Reading Comprehension

Scroll down to continue

Dictionary

Enhancing your reading experience, the Scanmarker Pro's dictionary feature not only looks up but also reads out the examples of the definitions of words, facilitating independent reading with natural voices. This innovative tool empowers users to better comprehend the meaning of words, making the learning process more efficient and enjoyable. Whether you're delving into textbooks, magazines, or documents, unlock a deeper understanding of the content at your own pace.

Save text for editing

Effortlessly preserve your scanned text by saving it as a text document for seamless export to your computer. Import text to any editor such as Word or Scanmarker webapp for further reading and editing
