

Device Lifecycle Services

Outcomes Through Technology

Modular, scalable, end to end lifecycle support

Maximise the wellness of your technology, staff and cashflow

Your investment in the hardware that supports your business is only the beginning of the IT lifecycle. Create a modern, cost-effective ecosystem by bundling the right devices, software and a tailored end-to-end lifecycle service.

From acquisition, through streamlined planning and deployment, to ongoing support and end-of-life asset recovery, Cyclone can support the entire lifecycle of end user devices.

Setup, deployment, ongoing support and e-waste services of your choice of devices can be managed seamlessly ensuring you get the tech you need for modern work, with expert support all the way.

Some benefits of full lifecycle management for your organisation:

- Modern technology always
- Appropriate role based device planning for employees
- Frees up IT teams
- Dedicated support
- Robust security
- Decommissioning and recycling of devices at end of life
- Smart sustainable IT choices that are good for business and good for the planet.

Our Device Lifecycle Services allows customers to spend less time on planning and administration, and more on supporting innovation and growth.
