Olympus is delighted to invite you to an exclusive Breakfast Symposium, proudly sponsored as part of the upcoming **GESA AGW** in Perth.

Saturday 29th August 2026

Meeting room 6, level 2

7:00am-8:15am

AI in Endoscopy: Hype, Help or Harm?

AI is moving faster than evidence, policy and clinical behaviour. Are we improving outcomes - or accelerating complexity? This session isn't designed to create agreement - it's designed to challenge it. Expect strong opinions, uncomfortable questions, and spirited debate as experts examine the real-world implications of AI adoption in endoscopy.

**Seats are limited,
register today!**

**Register directly by
scanning the QR code**
or via your AGW
registration portal.

What will be challenged?

Assistance Vs Reliance

Innovation Vs Accountability

Privacy Vs Performance

Value Vs Complexity
