I am a proud Djabugay, Jirrbal, Muluridji woman from the Rainforest Wet Tropic and Birri Gubba Tribe of FNQ.

I showcase my authentic traditional and contemporary artistic ability inherited through my father's lineage in my painting, drawing and sketching and in other usage of method and tools.

My mother's maternal line taught me the art of hand crafting of nature's flora and fauna preserved findings.

I have attended and engaged in selling my art and craft at markets in the regular community and cultural events.

All my creating was taught with perfection, patience, love and care.

My passion is to continuously walking on that one track of what's keep me grounded, happy and proud.
